- Police custody must only be used for s.136 MHA detainees in highly exceptional circumstances, e.g. genuinely unmanageable risks of resistance, aggression, violence or escape, or if also detained for an offence. We scrutinise every use of custody in these circumstances.
- In July 2017 we detained one person in custody under s.136 MHA - due to a substantive offence.
- The number of occurrences with a mental health qualifier are under represented. This is one of the focus areas for the Police Knowledge Fund research with University of York, who are reviewing our processes (along with good practice elsewhere) to help determine how we can improve in this regard.
- Please note there is no July data for the Use of mental health street triage teams.
