

# Corporate Performance, Delivery & Scrutiny Board

Collaboration April 2017

**ACC Amanda Oliver** 

BE SAFE FEEL SAFE

## **Background**

- Consider the benefits achieved through the Police-to-Police Collaborations NYP is engaged in.
- Maintaining and enhancing the service to the public is the main goal of collaborative services.
- The benefits of collaboration are not always about financial savings, but about efficient and effective service delivery and resilience.
- The benefits of collaboration are not always consistent for every force taking part.
- The non-financial benefits of collaboration are not always easily measured.

# **Collaborative Landscape**

- Complex and varied landscape and drivers for collaboration.
- Four main categories:
  - National
  - Yorkshire and the Humber (YatH) (Humberside, North Yorkshire, South Yorkshire and West Yorkshire)
  - North East Region (Cleveland, Durham, Humberside, Northumbria, North Yorkshire, South Yorkshire and West Yorkshire)
  - Evolve (Cleveland, Durham and North Yorkshire)
- Live collaborations change and develop to meet changing threat, risk and harm picture.

# **National**

- National Police Air Service (NPAS)
- National Ballistics Intelligence Service (NABIS)
- UK Protected Persons Unit (UKPPU)
- These collaborative services deliver a level and quality of service to the public that NYP would not be able to deliver independently for the same cost

# **Yorkshire and the Humber (YatH)**

- Firearms and Firearms Training
- Procurement
- Underwater Search
- Scientific Support Services
- Odyssey (Serious and Organised Crime)
- Benefits focused on standardisation, interoperability, resilience and generating savings and efficiencies
- Services went live between 2010 and 2014 numerous changes to the joint services since going live
- Overall increase in costs for delivering some of these services but non-cashable benefits to
  offset this

## **NPCC North East Region**

#### **Live Collaborations:**

- Disaster Victim Identification (DVI)
- Focus on interoperability, resilience and more efficient use of resources
- No costs or cashable savings, but significant non-financial benefits

## **Pending and Future Collaborations:**

- Chemical, Biological, Radiological and Nuclear (CBRN)
- North East Transformation, Innovation and Collaboration (NETIC) Programme

## **Evolve**

## **Live Collaborations:**

- Dogs Support Unit
- Cleveland and North Yorkshire Major Investigation Team (CNYMIT)

## **Pending and Future Collaborations:**

- Legal Services
- Focus on resilience, interoperability and quality of service
- The benefits are not just focused on savings CNYMIT includes extra investment to improve service

#### **Approach to Benefits Realisation – Lessons Learnt**

- Approach to collaboration and benefits realisation is maturing as lessons are learnt.
- Early collaborations haven't always consistently generated the information required to provide assurance that benefits have been achieved.
- New project process developed for use in more recent collaborations focused on ensuring the early identification and ongoing achievement of benefits.
- Comprehensive information on the benefits to the public achieved through collaboration is now increasingly available, demonstrating a more robust approach.
