Policing update – Kirby Misperton

Overview of Operation Kingfisher

- Our aim is to ensure that North Yorkshire Police provides a consistent and co-ordinated policing response to any hydraulic fracturing (fracking) related protest activity, fulfilling our core responsibilities and conducting ourselves in a manner compatible with the values of North Yorkshire Police and the Code of Ethics.
- We will continue to facilitate fundamental Human Rights around ‘Peaceful Protest’ by supporting and protecting those engaging in it and taking account of their rights to freedom of expression, assembly and association.
- We will do this whilst balancing the needs and rights of the wider public, local communities (residential, visiting, and business) and the rights of all, including the Energy companies, to go about lawful and peaceful activities.
- We are responding proportionately to any protest activity related to hydraulic fracturing. Although we are focused on this operation, it is still **‘business as usual’** elsewhere for North Yorkshire Police, and people can be reassured that we will be attending to our usual duties and continuing to provide a high quality service across North Yorkshire and the City of York.

Overview of Operation Kingfisher

The Traffic Management Plan published by NYCC shows that we are now a third of the way into the operation. Phase 2 is almost complete. The next phase we are approaching is phase 3 which is expected to commence 26th October 2017. It is anticipated that this phase will last approximately 6 weeks, and we anticipate significant vehicle movements during this time (vehicle movements shown in red).

1. Noise Attenuation Barrier (156) - complete

2. Pre-Stimulation Workover (30)

3. Hydraulic Fracture Stimulation (388)

4. Production Test

5. Production

6. Site Restoration
