# Public Accountability Meeting Public questions

Helping you to be safe and feel safe in North Yorkshire

# **Public Accountability Meeting**

**Objective 1:** A mobile workforce, enhanced with, and effectively using technology, that encourages a flexible, dynamic and innovative approach to delivering services locally.

**Objective 2:** Plan and prepare for changing and future demand, so that we improve our ability to deal with problems such as cyber enabled crime, fraud and the exploitation and abuse of children and adults.

**Objective 3:** A planned, co-ordinated and collaborative demand reduction/prevention strategy that addresses the causes of demand to prevent harm, will reduce crime and anti-social behaviour over the longer term.

**Objective 4:** Make effective use of the whole policing family to provide the most appropriate service when and where it is needed.

**Objective 5:** Empower communities to engage more actively with the police service.

Strengths – What is working well?

- Effective use of technology: OMW, BWV, ANPR, Single Online Home, NEP
- Understand and Prepare for change in demand: County lines, historical CSE (Control Strategy and FMS themes)
- **Prevention and Early Intervention Approach**: CERT teams, community safety hubs, Craven pilot, multi-agency officer pilot, TOM
- Whole Policing Family: Citizens in policing work, integration with fire, multi-agency officer, City Task Force, Cadets
- **Empowered Communities**: CERT teams problem solving focus, online PCSOs, Rural Task Force, community messaging

Challenges – Things we are looking to solve:

- Achieve stability: embed new ways of working
- Improved working practices: delivering an IT capability that allows for effective operational policing
- Increasing productivity: utilising resources to drive increased value for money
- Understanding the impact: how service delivery meets the needs of our communities
- **Growth:** moving to becoming a learning organisation

## **Opportunities that exist to overcome our challenges:**

- Officer Uplift
- IT infrastructure
- Craven pilot outcomes
- Focus on prevention and early intervention
- Enhanced service offer for victims
- Tackling offender behaviour

## Aims - opportunities we intend to pursue/want to develop:

- Invest officer capacity in targeted function in order to move towards a prevention and early intervention model
- Enhanced IT platform to meet future challenges
- Identify and cascade the learning from the Craven Pilot Force wide
- Embed a new operating model

### Results - what we expect to achieve in the next 12 months (and beyond):

## In line with the Force Management Statement (2)

- Respond to the changing nature of demand
- Manage public expectations
- Drive down costs and release capacity

# **Questions?**

# Public Accountability Meeting 24<sup>th</sup> March 2020

**Realising our potential** 

Andy Blades – Andrew Brodie

# **FRS Plan: Priorities**

WP

# Caring about the vulnerable

to provide services that will best protect the most vulnerable people in our community and in doing so, make them safer

### Ambitious collaboration

to maximise opportunities to work jointly with partners and to provide a more effective, efficient and proactive community safety service

### **Realising our potential**

to create an inclusive work environment and a positive, supporting culture where we provide our people with the equipment, IT, training, skills, and capacity to effectively prevent and respond to incidents

### Effective engagement

to increase trust and public confidence in our Service, involving, engaging and consulting our communities on the services we provide and delivering the best possible service

# **Realising our potential**

### We will:

- Take every opportunity to improve the diversity within the workforce
- $\circ$   $\,$  Strive to make the Service a fair and equal workplace  $\,$
- o Provide clear, inspirational and trusted leadership
- $\circ$   $\,$  Improve our decision making and performance
- Recognise and maximise the value of all staff

# **Strengths**

**NORTH YORKSHIRE** FIRE & RESCUE SERVICE

- Established, effective 'operational license' training provision
- A broader range of formal training linked to protection activity qualifications
- Leadership and management development for all areas
- Continuous professional development programs
- Introduction of new equipment and technology e.g. e-Draulic rescue tools, Tablets for prevention and protection activity
- Shared NYP & NYFRS Leadership Days
- Shared learning week January 2020
- Station visit programme by Strategic Leadership Team

### Underpinned by ED&I groups and colleague networks

# Challenges

- Attracting diversity into North Yorkshire
- Changing the culture and building trust
- National drivers (the pay and broadening of the role debate)
- Financial position limits investment in new equipment
- Work environments can be uninspiring and not accommodating diversity
- On call duty system does not reflect societal life style
- National fitness testing methods can be an obstacle

Operational Workforce by gender 2017-2018

Men, 95%

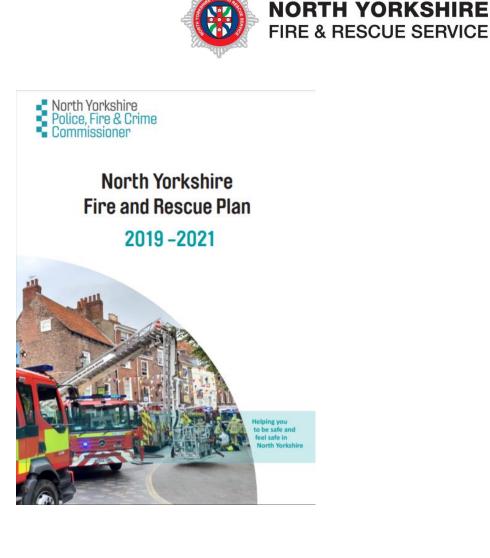

# **Opportunities**

- Collaboration offers financial savings, contribute to future investment
- Enable provides greater diversity, inclusion and new ways of working
- Risk and resource model will research, analyse and evaluate a variety of response options. Aim will be to improve availability balanced with the limited capacity
- New organizational structure to adopt intent based leadership
- HMICFRS outcomes will drive change
- Clear direction, FRS Plan, Ambition 2025:

-On-call availability -Maximising Value for Money of Service Delivery

-Saving to invest to modernise

# Aims

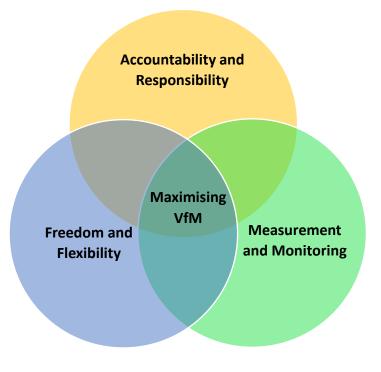

- To enable people to feel engaged, motivated and included in their work
- Empower people to lead, have more freedom and flexibility
- Be transparent and continue to develop trust
- To have a fire and rescue service that is contemporary, supports effectiveness and efficiency
- Maintain and improve a safe environment for all

# **Opportunity 2: Maximise VfM In Service Delivery**

### **Delivery Tools**

Prevention Protection Response Resilience

**Enabling Tools** 

Planning Partnership Performance Monitoring

# **Results** What the future looks like

- Improved diversity in all areas
- An estate well designed to accommodate our diverse workforce
- First class equipment in all areas
- Colleagues feel valued and are confident about their work, through good training, equipment and resources.
- We will better understand the causal effect of our work through evaluation toolkits
- Staff surveys will demonstrate levels of accountability and responsibility
- HMICFRS results will improve across all three pillars

#### **Mental Health**

#### Occurrences involving a person(s) with a mental health qualifier

- The increases in Mental Health related incidents previously reported have now become static as we start to see the a more prevalent volume of demand.
- Incidents with a Mental Health tag have accounted for 12.3% of all incidents in the last 22 months

#### Incidents with highest number of Mental Health Tag (Apr '18 – Feb '20)

Description	Volume with mental health tag	% of All Type of Incidents

VIOLENCE	2275	13.83%
ASB NUISANCE	1272	7.07%

Incident data (left) relates to the initial police response where Mental health presented and was tagged on the incident

#### Use of police custody as a place of safety

Police custody must only be used for s136 MHA detainees in highly exceptional circumstances, e.g. genuinely unmanageable risks of resistance, aggression, violence or escape, or if also detained for an offence. We scrutinise every use of custody in these circumstances.

The below volumes have been reviewed and changed. Previously any s136 detention that occurred in custody has been counted, however, all but the below incidents, custody was not actually used as a place of safety, the incident occurred whilst in custody before the individual was transferred to a recognised Health Based Place of Safety and as such custody was never used as a Place of Safety. In these cases, the mental ill-health of the detainee was identified after their arrival at a custody suite.

Harrogate	2901
Richmondshire	901
Ryedale	1009
Scarborough	4326
Selby	1980
York	4948
Total	18469

- There has been a year on year increase in the volume of Domestic Abuse related recorded crimes since 2016/17. There was a 43.4% increase in the volume of Domestic Abuse recorded crimes between 2017/18 and 2018/19, from 4,402 to 6,311. The volume of Domestic Abuse related non-crime occurrences has decreased by 2.3% between 2017/18 and 2018/19, from 4,395 to 4,295.
- Cases spike at weekends and in the summer months. The majority of reports consist of violence, either with or without injury. Increases are being seen across most age groups but most noticeably in the 16-18 range and also child on parent offending. The changes to the definition and scope of domestic abuse have in part contributed to the increase. For example, the reduction of the lower age limit from 18 to 16, and the introduction of offences of controlling or coercive behaviour have affected recording levels.
- Domestic abuse related stalking and harassment is also prevalent with continued frequent contact by telephone or online continuing the controlling elements of the former relationship after it has ended. Increases are also being noted in the reporting of non-recent offending in a domestic setting but this remains less than 10%. There is no longer a time limit on abuse evidence, which previously stood at five years. Additionally, the range of documents accepted as evidence of abuse has been widened to include statements from domestic violence support organisations and housing support officers. It has been noted that investigations are tending to deal with multiple crime reports as non-recent crimes are increasingly reported as part of current investigations.

### Proactivity: How has proactive policing contributed to control strategies? (February 2020)

### **Rural Task Force**

#### Caring for the Vulnerable

"Down on the Farm" developed in collaboration with NHS Tees, Esk, Wear Valley Trust, Yorkshire Agricultural Society, NFU, NYCC, to increase self-referrals and awareness of mental health support and intervention available to those suffering with mental health issues in rural communities.

Rural Vulnerability forum being developed to address concerns about various aspects of vulnerability in the rural community, and how support can be given to rural victims who fall short of the threshold for support by Victim Support.

Training around domestic abuse was delivered to RSPCA partners and was well received. This may lead to a roll out of similar training; nationally to the RSPCA, to other relevant partners, and on other areas of vulnerability.

Vulnerable victims have recently been identified and appropriate referrals have been made.

Property Marking Events are regularly held to provide reassurance and a deterrent against theft.

#### **Ambitious Collaboration**

Operation Checkpoint was held on 11<sup>th</sup> February and was a great success with 4 arrests, 4 vehicles seized and 3 people dispersed from the county.

Local meetings with neighbouring forces occur monthly between PC's / PCSO's on area, and neighbouring force NPT's, to share intelligence and operational activity. Op Owl raising awareness of bird crime. PS512 Grainger coordinated this nationally which involved 26 forces last year, resulting in over 7.5million social media

interactions over the weekend. Dates for Op Owl for 2020 are agreed, the first weekend is on 18<sup>th</sup> and 19<sup>th</sup> of April. We currently have 33 forces signed up.

Members of the team have been working with the Environment Agency conducting a warrant at a commercial premises investigating illegal dumping of waste.

Work ongoing with partners to disrupt criminal activity of OCG's especially Existence, involving National Food Crime Unit and Trading Standards.

The team has been working with the RSPB, Natural England and the laboratories at FERA in York and SASA in Edinburgh over the last few weeks.

#### Reinforcing Local Policing

Identify and support local priorities including proactive patrol, in particular in response to recent issues of fox hunting in the Selby area.

Op Extractor is an ongoing OCG management into group committing rural burglaries in the north of county. A file is currently with the CPS and early reports are looking like there will be multiple charges for multiple offenders.

Op Existence investigation into livestock theft and subsequent sale, OCG management and working with partners such as NFCU and Environmental Health to tackle OCG. Recent arrests have been made in regards to this group and extensive enquiries are ongoing.

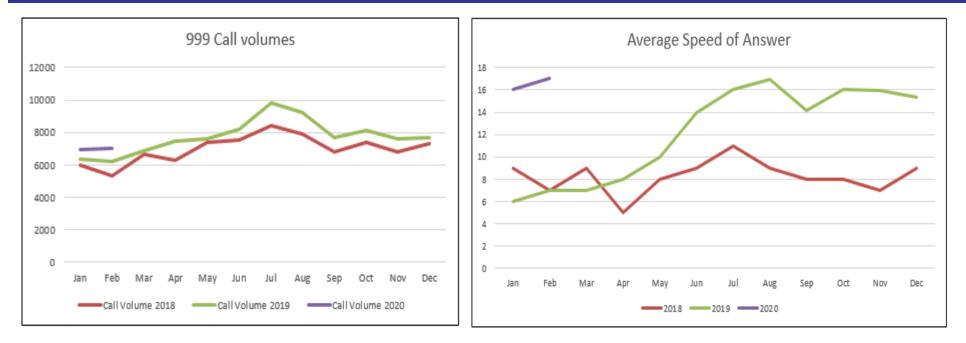

Further arrests have been made in Cleveland, South Yorkshire and West Yorkshire recently, with officers proactively following up enquiries rather than waiting for neighbouring forces to act on information. This has also resulted in stolen property including quad bikes and agricultural equipment being returned to owners. Members of the team have been down into Humberside on several occasions recently, arresting suspects for a series of thefts from cars in rural locations. We are currently entering a bid for the Safer Streets Fund to try to obtain additional funding for our prevention work.

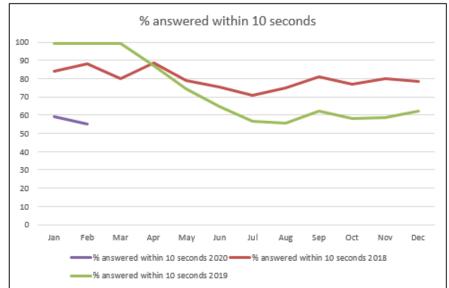

#### **Enhancing Customer Experience**

Mobile Rural Watches are now established in all districts of North Yorkshire, their activity being collated under Op Harvester. An event was held in Thirsk to train and update some of the 200+ mobile rural watch PSV's. WhatsApp is being used very successfully to support these groups and has been pioneering in both gathering intelligence and providing reassurance to communities. This will soon be across all Watch schemes. There are 3 new watch schemes being set up. The latest being in Thixendale.

Numerous local events are still being attended on area, ranging from shows, to local marts, to farm open days, enabling contact, engagement with, and information flow between the team and rural public. Recent events attended include Farm Open days, Ripon Farm Services event at the GY showground and York Agri Mart. Internal SharePoint and Intranet sites are up and running to communicate the work of RTF to police colleagues.

The above figures have been amended to include the Officer FTE Budget for the month after vacancy factor and also what the projected numbers are for the rest of the financial year (figures in shaded boxes).

The actual number of Officers has increased by 20 FTE from the previous month. The 8.89 FTE leavers are broken down to 6 retirements and 1.89 resignations and 1 transfer to another Force. The number of starters is the same as projected but different in makeup. (23 student officer and 3 transferees, rather than 28 student officers projected). The number of leavers is slightly less than that projected.

The next intake of Student Officers is planned for March 2020. Student Officer intakes have been amended as part of Operation Uplift. There are further intakes of transferees throughout the year.

The Staff Budget has been adjusted for 2017/2018. The budget is managed on a monthly basis depending upon business requirements and therefore is likely to change during the financial year.

The projections remain static as the majority of current recruitment is internal; therefore we are unlikely to see a significant increase in staff numbers over all.

Corporate Services has now been added into Chief Constable. All rows include Agency staff unless stated.

OPCC figures do not include the PCC / DPCC. The total number of actual Staff has increased by 3.17 FTE from the previous month.

No agency staffs are in supernumerary posts.

14.53 x agency staff are backfill or interim postings against established posts (includes part time agency staff).
