NARRATIVE REPORT TO THE STATEMENT OF ACCOUNTS for NYPFCC and NYPFCC Police Group

1. Introduction

The purpose of this Narrative Report is to provide a concise and easily understandable effective guide to the most significant matters reported in the accounts. The Narrative Report provides a brief explanation of the Police, Fire and Crime Commissioner for North Yorkshire's (NYPFCC) financial position and assists in the interpretation of the financial statements, including the Group Accounts. It provides a commentary on the major influences affecting the income and expenditure and cash flow, and information on the financial needs and resources of NYPFCC and the Group. It gives an indication, in broad terms, of where NYPFCC's money comes from, what it is spent on and the services it delivers.

These accounts are prepared based on the Police Reform and Social Responsibility Act 2011 (the Act) which created two "corporation sole" bodies - the Police, Fire and Crime Commissioner for North Yorkshire (NYPFCC) and the Chief Constable of North Yorkshire Police (CCNY). The primary statutory duty of the Police, Fire and Crime Commissioner is to ensure the maintenance of an efficient and effective police force and to hold the Chief Constable to account for the exercise of operational policing duties under the Police Act 1986.

The financial statements presented here represent accounts for NYPFCC and also for the NYPFCC Group (the Group). NYPFCC has been identified as the parent organisation of CCNY and the requirement to produce group accounts stems from the powers and responsibilities of NYPFCC under the Act.

The Group accounts for the year ended 31 March 2020 are presented in the format laid down in "The Code of Practice on Local Authority Accounting in the United Kingdom" (the Code) issued by the Chartered Institute of Public Finance and Accountancy (CIPFA).

The statements included in the accounts are as follows:

Statement of Responsibilities for the Statement of Accounts

This explains both NYPFCC's and the Chief Finance Officer's responsibilities in respect of the Statement of Accounts.

Movement in Reserves Statement

This Statement shows the movement from the start of the year to the end on the different reserves held by the Group, analysed into usable reserves (i.e. those that can be applied to fund expenditure or reduce local taxation) and other unusable reserves. This statement shows how the movements in year of the Group's reserves are broken down between gains and losses incurred in accordance with generally accepted accounting practices and the statutory adjustments required to return to the amounts chargeable to taxpayers for the year. The Net Increase/Decrease line shows the statutory General Fund Balance movements in the year, following those adjustments.

Comprehensive Income and Expenditure Statement

This Statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Police and Crime Commissioners raise taxation to cover expenditure in accordance with regulations and this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis (Note 2 to the Accounts) and the Movement in Reserves Statement.

Balance Sheet

The Balance Sheet shows the value as at the balance sheet date of the assets and liabilities recognised by the Group. The net assets of the Group (assets less liabilities) are matched by the reserves held by the Group. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Group may use to provide services, subject to the need to maintain a prudent level of reserves (for example the General Reserve and the Insurance Reserve) and any statutory limitations on their use (for example the Capital Receipts Reserve may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Group is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line "Adjustments between accounting basis and funding basis" (for example the Capital Adjustment Account).

Balance Sheet

The Balance Sheet shows the value as at the balance sheet date of the assets and liabilities recognised by the Group. The net assets of the Group (assets less liabilities) are matched by the reserves held by the Group. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Group may use to provide services, subject to the need to maintain a prudent level of reserves (for example the General Reserve and the Insurance Reserve) and any statutory limitations on their use (for example the Capital Receipts Reserve may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Group is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line "Adjustments between accounting basis and funding basis" (for example the Capital Adjustment Account).

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the Group during the reporting period. The statement shows how the Group generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Group are funded by way of taxation and grant income or from the recipients of services provided by the Group. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Group's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Group.

Accounting Policies

This explains the basis of the preparation of figures in the accounts. The accounts can only be properly appreciated if the policies that have been followed in dealing with material items are explained. Changes in policies from previous years have been clearly shown.

Police Pension Fund Account

This account summarises the income and expenditure related to the Police Pension Schemes. These statements are supported by various notes

2. Summary of Financial Year 2019-20: Revenue

The Group incurred revenue expenditure during the year. Revenue expenditure is generally spent on items which are consumed within the financial year and is financed from Precepts, Government Grants and other income.

There is a direct relationship between the spend of revenue in the year and the Comprehensive Income and Expenditure Statement, however in the accounts a technical treatment is applied which makes a direct comparison to the in-year management position difficult. The summary that follows provides the detail on the outturn spend position compared to the budget. This gives a clearer assessment of performance in the year compared to the budget. The total revised budget for the year was based on the receipt of £167.4m, the table below shows the expenditure against that budget across those areas considered within the management accounts of the Group.

	Original Budget	Final Budget	Final Spend	(Under)/ Over Spend
	2019/20	2019/20	2019/20	
	£000s	£000s	£000s	£000s
Funding				
Funding for Net Budget Requirement	(154,380)	(154,381)	(154,380)	1
Specific Grants	(4,105)	(4,253)	(4,994)	(741)
Partnership Income/Fees and Charges	(8,129)	(8,768)	(10,082)	(1,315)
Total Funding	(166,615)	(167,401)	(169,456)	(2,055)
Office of the PCC Planned Expenditure	£000s	£000s	£000s	£000s

Total Policing Priorities Fund	5,995	2,155	0	(2,155)
Corporate Costs	£000s	£000s	£000s	£000s
Asset Management	401	625	487	(138)
Total Corporate Costs	401	625	487	(138)
Police Force Planned Expenditure	£000s	£000s	£000s	£000s
Pay				
Police Pay	75,929	77,541	78,776	1,235
Police Overtime	2,033	2,017	2,038	21
PCSO Pay (incl Overtime)	6,719	6,883	6,567	(316)
Staff Pay (incl Overtime)	38,548	38,952	37,770	(1,182)
Pay Total	123,229	125,393	125,151	(242)
Non-Pay Budgets				
Other Non Salary	1,648	1,759	1,880	121
Injury and Medical Police Pensions	3,700	3,700	3,920	220
Premises	4,519	4,513	4,510	(4)
Supplies and Services	22,848	22,564	22,477	(87)
Transport	2,643	2,638	2,706	69
Non-Pay Total	35,358	35,174	35,493	319
Projects	991	1,806	3,623	1,817
Efficiency and Savings Targets	(5,000)	(4,105)	0	4,105
Total Planned Force Expenditure	154,577	158,268	164,267	5,999
(Surplus)/Deficit before Planned Reserves/	£000s	£000s	£000s	£000s
Contribution to Capital Programme	2,342	1,666	(151)	(1,817)
Planned Transfers to/(from) Earmarked Reserves	(1,436)	(541)	362	904
Final/Forecast Over/(Under) Spend	(0)	(0)	157	157

During 2019/20 there was an overall unbudgeted overspend of £157k for the Group which will be funded from Reserves.

Overall Position

In increasing the Precept by £22.95 last year the Police, Fire and Crime Commissioner was clear that the Chief Constable needed to continue demonstrating progress on delivering the efficiency savings in order to justify the increase.

The programme of organisational change over the next two years was to remain a priority for the Chief Constable, with a clear objective of saving and additional £2.5m per annum on top of those efficiencies and savings factored into the 2019/20 budget. The activity of change has continued to be implemented in order for this to be achieved.

In addition to the financial plans, the Force agreed to maintain and increase frontline policing and PCSO numbers to reach our targets of 1,451 FTE Police Officers and 223.5 FTE Police Community Support Officers by the end of 2019/20.

The below provides an overview of some of the key work that has been delivered in order for these changes to be achieved during the year and plans that have been progressing for the year ahead in order for further savings to be made and demonstrates where future investments will continue to enhance the service provided.

Delivery against 2019/20 Plans

Officer Numbers

Local**Policing**

The uplift from the 2019/20 precept has secured additional Police Officer and Police Community Support Officer resources to enhance visible policing at a neighbourhood level and is focused upon prevention and early intervention. This is both within the physical and virtual space and investment is made in areas of hidden or emerging demand.

Following the investment into local policing from the 2019/20 precept a new City Task Force was established to focus on primary interventions to ensure that the more urban communities' problems were being solved. In September 2019, the York City Task Force was established and are responsible for proactively disrupting those involved in criminality, targeting specific crimes and night time economy related ASB in the city. The team, consisting of a Police Sergeant and seven Police Officers, work to address city issues and concerns working collaboratively with a range of public and private partners. They support and safeguard vulnerable individuals and groups within the community to prevent them from becoming victims of crime or disorder and seek to identify a range of approaches to manage and divert those at risk of reoffending to reduce their impact on the community.

Work has been developing to recruit the online Police Community Support Officers to sit within communities working remotely from locations including community cafes, youth clubs, community centres, libraries and supermarkets. These digital Police Community Support Officers will be accessible to online communities and will simultaneously provide a visible presence. Three Police Community Support Officers have been selected and will take post in March 2020 in Scarborough, Ryedale and York following the in house training package which has been designed. Although the Officers will be physically sitting in these three District community locations, they will be present in the virtual, online communities across the Force area. It is anticipated that a further four Police Community Support Officers will be recruited to take the additional posts at the beginning of 2020/21.

A percentage of the 2019/20 Precept increase was used to secure dedicated Mental Health Co-ordinator roles across North Yorkshire. As part of their role, they support the Force Control Room Mental Health Triage Team and Mental Health Street Triage Teams by providing a vital link between Mental Health services, Hospitals and other key partners to manage and support vulnerable individuals with mental health needs who are identified at an early stage as being at risk within the community as well as those who repeatedly present to services.

In June 2019, we relocated the Selby Neighbourhood Policing Team to their permanent new home within Selby Civic Centre.

ICT Road Map

The roadmap is fast approaching the completion of Year 1 with initiatives in flight for 2020/21 delivery. This first year was focused on staffing, contract management and rationalisation to lower the total ICT operating cost. The roadmap is on track to achieve the £1.22m savings for Year 1 (2019/20) with over 100 contracts and cost items having been reviewed.

Refresh of Tablet Computers

The project to refresh tablet computers used by selective operational Police Officers was completed in August 2019 and involved the replacement of 1,000 legacy tablet devices with modern higher performance and capable 2 in 1 Laptops. These new devices are future ready for new services to be released in Year 2 of the Roadmap such as fingerprint sign-on with Microsoft 365.

The refresh has delivered the following outcomes:

- 7 x Faster device setup time by user (previously 22 minutes, now only 3 minutes)
- 3 x Faster device boot up to Mobile Policing application (previously 3min 12 sec, now only 58 seconds)
- Over 5 thousand hours of efficiencies for users

The new laptops have been pivotal in the increased use of mobile policing applications and increasing the uptake in generic agile working out within communities.

Implementation of a Multi-Agency Case Management System to manage services to victims

The project involved the procurement and implementation of a case management system, Orcuma FiRST, to be accessed and used by the OPFCC, Supporting Victims Team, Commissioned Services, North Yorkshire Police and partner agencies, to assist them to manage the services they provide to victims and resolve issues that affect communities.

Orcuma FiRST has proved an effective case management tool and realised efficiency savings across the range of users. To date, benefits include:

- Reduction in staff time processing referrals
- Reduction in use of spreadsheets / Excel
- Online referrals
- Improved performance reporting

Community Messaging System

In April 2019, we signed up to a new systems supplier for our Community Messaging service which now has around 40,000 people across North Yorkshire signed up to receive our messages.

Business Insight

Working away from the spotlight, our data and information team are delivering business intelligence products which have notably improved our information provision to both the front line and to enabling functions over the last 12 months. These developments are allowing more intelligence-led decisions to be made both operationally and organisationally and freeing up time for staff and officers who had previously been undertaking data extraction and manipulation to focus on delivering services to our communities. For example, our People Services dashboard allows for prompt identification of and response to emerging sickness trends or to plan for seasonal peaks in absence. Crime and incident dashboards have been delivered which allow for trend identification over years as well as providing detailed information to policing teams on the type, location and temporal elements of crime and incidents, including ASB, being reported in their areas. The Stop Search dashboard allows oversight of our search activities and provides a basis for internal and external scrutiny of patterns and trends regarding reasons for search and search outcomes by ages, gender, ethnicity and different geographies.

Operational threat assessment

Our regular analysis of all areas of policing, including not just crime, but also ASB, vulnerability and specialist areas such as Armed Policing and Roads Policing was undertaken in mid-2019. This process assessed our capacity and capability in all these areas as well as volume, trend direction and victim impact - identifying communities which were evident or absent within our crime, ASB and vulnerability data. For example, a gap was identified in national processes regarding the reporting of fraud and in response to this, we amended our approach. Rather than following the national approach of reportees being signposted to the Action Fraud team in the City of London Police, we now crime fraud crime reports at the point that we receive them. This has led to a significant increase in reported fraud within North Yorkshire but enables the necessary victim support and safeguarding responses to be implemented as soon as possible. Fraud and cybercrime are increasing at a faster rate than other types of crime, and the increased rate of technological advances and a sophistication in criminal use of artificial intelligence and 5G-enabled devices will pose future challenges. A continued focus on identifying hidden communities who are subjected to or involved in the commission of crime will place additional demands on our neighbourhood policing and investigative teams.

Inspections/Reviews

A follow up inspection of our Crime Data Integrity undertaken in 2019 evidenced a significant improvement from the 2018 grading of Inadequate to Good. HMICFRS found that the force has implemented a variety of measures which have allowed it to dramatically increase the quality of its recording processes, as well as its overall recording rate. The force now records over 92 per cent of all crimes reported to it (compared with just over 80 per cent during the 2017 inspection). This means that the force now records an additional 6,100 crimes each year. The North Yorkshire Police: Crime Data Integrity re-inspection 2019, found that the force has:

- successfully developed and implemented an effective crime data integrity plan;
- improved its recording of reports received directly into its public protection department from partner organisations;
- improved its overall recording standards for all types of crime, and especially rape and other sexual offences; and
- recorded more crimes within 24 hours of receiving the initial report

The National County Lines Coordination Centre (NCLCC) conducted a peer review of how we tackle "county lines" drug dealing and the associated vulnerability. They published their report in October 2019, which highlighted the excellent work going on around NYP with many areas of our work singled out for praise. NYP invited this level of scrutiny as not every force would do it, and it only demonstrates our commitment to improving how we disrupt this area of serious crime.

In early 2019, Project Servator, the policing tactic that aims to disrupt a range of criminal activity, including terrorism, while providing a reassuring presence for the public was assessed as "outstanding" for the work carried out in north Yorkshire to implement and embed Project Servator. The grading follows a quality assurance assessment by the National Project Servator Team earlier this year where they singled out North Yorkshire Police's engagement with strategic partners as "excellent" and "exceptional" and the planning of deployments was described as "thorough, well thought out and meticulous in every aspect."

HMICFRS's fifth PEEL (police effectiveness, efficiency and legitimacy) assessment of North Yorkshire Police reported that we are good at preventing crime and anti-social behaviour and good at investigating crime and has continued to improve how it identifies and protects vulnerable people. We now have better systems to identify and support vulnerable people and makes greater use of protective powers. The Force understands current demand well and seeks to use its resources efficiently.

Transform 2020

Many of the projected financial efficiencies for 2019/20 and beyond are linked to the T2020 programme. Since its establishment in the summer of 2018, the delivery of the Transform 2020 transformation programme has been a key priority for North Yorkshire Police. The aim of the programme was to fundamentally realign the operating model of enabling services and embed collaborative working at the core of each of these services, whilst also delivering £10million recurring savings within the MTFP period. The implementation phase of the Transform 2020 Programme, which began in January 2019, is well underway and the changes to staffing structures and business processes will be in place by April 2020.

Two phases of staff consultation have been delivered, with the first delivering simpler changes to staff structures and roles and responsibilities and the second delivering more complex changes driven by process redesign and substantial changes to ways of working which will go live in April 2020. As well as implementing changes across the enabling services, changes to the staffing structure and shift patterns were introduced in the Force Control Room. In addition, an upskilling programme has been run to improve the consistency and confidence in the use of THRIVE and changes to management and supervision have been introduced to better support staff and improve performance.

Enable North Yorkshire

As part of the Transform 2020 programme covering both North Yorkshire Fire Service and North Yorkshire Police 'enable' North Yorkshire was created in April 2019. The enabling services including, ICT, Finance, HR and Training, Estates, Logistics and Transport and Business Design and Assurance have developed new ways of working to increase collaboration and reduce costs across the two organisations.

Shared Headquarters

December brought the end of a successful project which saw North Yorkshire Fire and Rescue Service and North Yorkshire Police joining together under one headquarters at Alverton Court in Northallerton.

3. Comprehensive Income and Expenditure Statement (CIES):

The figures for the year shown here can be reconciled to the CIES via the Movement on Reserves Statement. The technical treatment required means that the outturn presented in this Narrative Report and the movement on the General Fund Balances in the accounts are different. The Expenditure and Funding Analysis in Note 2 to the Accounts presents a reconciliation.

4. Summary of the Financial Year 2019/20: Capital Expenditure and Fixed Assets

Capital Expenditure is spent on items which provide value to the Group for more than one year and is financed from Government Grants, income realised from the sale of capital assets, revenue contributions, loans and reserves. The assets owned by the Group are a vital platform for the delivery of the Commissioners Police, Fire and Crime Plan, with the overall purpose of the capital plan being to provide sufficient funding to renew the asset base of the organisation, informed by condition deficiency surveys, 'fit for purpose' reviews, equipment replacement programmes, business continuity requirements and invest to save expenditure. Capital plans are maintained over a rolling five year period, and the revenue consequences, in terms of the savings that are expected to be delivered from the implementation of the plans and also the costs of borrowing to fund the Capital programme in future years have been incorporated into the Medium Term Financial Plan (MTFP).

The CIPFA Prudential Code of Practice is a key element in the system of capital finance. Under this system individual Police and Crime Commissioners are responsible for deciding the level of their affordable borrowing having regard to the Prudential Code. The Capital Plan and its financing are within prudential limits.

The budget for the 2019/20 Capital Programme was £10.0m. Actual spend during the year was £4.26m. Of the amount not spent, £5.78m was slippage to be carried forward into 2020/21. The details of how the actual capital expenditure was financed in the year are set out in Note 20 (a) to the Accounts.

Expenditure on Major Capital Schemes during the year is detailed in Note 20 (b) to the Accounts.

All properties have been revalued as at 31st March 2020 and details are provided in Note 20 (c) to the Accounts.

The depreciation and amortisation charges for the year, amounting to £5.9m (2018/19 £6.1m) have been charged to the Comprehensive Income and Expenditure Statement within Net Cost of Services.

The sale of surplus property continued in line with the Estates Strategy and contributed £780k capital receipts which will be used to fund the capital programme in future years. Capital receipts from the sale of vehicles contributed a further £135k.

5. Police and Crime Plan and Annual Report

The Police Fire and Crime Commissioner produces a Police and Crime Plan which sets out the vision and priorities for policing and community safety in North Yorkshire, as well as the objectives and ambitions that the Chief Constable will be held to account against.

The plan sets out a shared vision for North Yorkshire's police service and charts our journey towards our destination. The Police and Crime Commissioner also produces an Annual Report on progress during the year against the Policing and Corporate Priorities, as set out in the Police and Crime Plan. The Annual Report is published as a separate document at the same time as the financial statements.

The priorities for North Yorkshire, as set out in the Police and Crime Plan for 2017 to 2021 (published in March 2017) are:

Caring about the Vulnerable:

We will have an in-depth understanding of how we can best protect the most vulnerable people in our society and will invest in services, skills and partner relationships to deliver the best possible outcomes.

Ambitious Collaboration:

We will reach out to partners and drive innovation forward to enhance policing, public protection, community safety and local justice services.

Reinforcing Local Policing:

We will equip our people with the technology, skills, capacity and personal support to prevent and tackle crime and reduce demand.

Enhancing the Customer Experience:

We will embed an outward-facing perspective to guide all our endeavours, providing an exemplary service that exceeds expectations, whether that be in serving the public, shaping the organisation or working with colleagues and partners.

6. Borrowing

The Group is proactive in managing its debt and overall funding and has recognised the need to borrow to invest in infrastructure and assets. The ongoing need to make investments to respond to national requirements continues as does the need to kit and equip officers and staff to enable them to be as effective and productive as possible. The Group has therefore adopted an approach of continuing with major investments and replacement projects as a long-term strategic view of policing delivery has been taken.

In line with the Treasury Management Strategy, care will be taken to ensure a balance of economic outlook, cash flow, reserve balances and affordability are taken into account for borrowing decisions.

The Group utilises capital grant, revenue budget contributions, reserves and borrowing to fund capital expenditure. The Medium Term Financial Plan, along with the funding strategy, considers all funding options and implications alongside the revenue impact for future years. These are then all taken into account as part of budget setting, which itself balances financing with performance outputs and investment in resources.

No external borrowing was taken out during the year with the overall level of borrowing for the Group remaining at £6m as set out in Note 25.

7. Pensions

As part of the terms and conditions of officers and employees, the Group offers retirement benefits in accordance with national agreements and schemes and participates in a number of pension schemes and is detailed in Note 28.

- Two Local Government Pension Schemes (LGPS) for police staff, administered by North Yorkshire County Council. These are funded defined benefit schemes, meaning that the Group and employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets;
- Three Police Pension Schemes for police officers. These are unfunded defined benefit schemes, meaning that there are no investment assets built up to meet the pension liabilities, but finance is only required to be raised to cover police pensions when the pensions are actually paid. Funding arrangements for the Police Pension Fund are detailed in the Police Pension Fund Accounts.

Although pension benefits will not actually be payable until employees retire, the Group has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement and details are provided in Statement of Accounts Note 28. The liabilities show the underlying commitments that the Group has in the long run to pay retirement benefits. The total liability has a substantial impact on the net worth of the Group as recorded in the Balance Sheet and results in a negative overall balance. However, statutory arrangements for funding the deficit mean that the financial position of the Group remains healthy.

8. Provisions and Contingencies

Details are provided in the Statement of Accounts Notes 27 and 29

9. Impact of current economic climate and Medium Term Financial Plan (MTFP) Implications

The Chief Constable and the Police and Crime Commissioner have a shared vision that by 2021, North Yorkshire Police will be synonymous with exemplary service. To support North Yorkshire Police to achieve this we need to transform the organisation in order to invest more in essential services in line with public expectation and changing demand. This involves the design of a new operating model that will make North Yorkshire Police fit for the future.

The reason we are doing this work is that there are various pressures on our service that we need to tackle constructively. As well as sheer volume of demand, there are changes to the nature of that demand, and we need to make sure we are the right "shape" to deal with what the future brings. On top of this there are numerous national and local initiatives that we will need to adopt over the next few years. These initiatives could bring real benefits to our Force and our communities, but they will also bring changes to the way we operate. These need to be properly thought-through and implemented effectively.

A balance financial plan for the next 3 years was approved in February 2020 based on assumptions at that time however much has changed since that time and this is considered further in relation to Covid-19.

10. Accounting Policies and presentation of the Accounts

The accounting policies adopted in the preparation of the accounts are set out formally in the Accounting Policies which follow. There have not been any significant changes in Accounting Policies during 2019/20.

11. Covid - 19

While the impact of COVID-19 was minimal in the financial period covered by these financial accounts it is important for the organisation to reflect on the impact that the pandemic is having, and could have, on the services provided in the future and the key issues that will help inform and provide future context to these financial statements.

Provision of Services

North Yorkshire is a large county with a significant tourist economy and even in the very early stages of lockdown the Force did not scale back any front-line functions. This was to ensure that front line engagement/enforcement, to people continuing to travel to the county and for our communities, were reassured and that the Force were taking steps to prevent travel into North Yorkshire. Given the relatively small size of the Force and the enormous geographic area to cover this meant that even with the reduction in calls for service the Force were at times pushed to provide the presence required to maintain the lockdown and social distancing measures required.

In addition to this the Force were deploying officers to some areas that would normally be covered with a very light presence as the demand shifted to some of the well-known beauty spots in some of the more remote parts of the county. The logistical challenges of ensuring that the Force covered both the locations and the routes in and out of those areas required the Force to re-task some of our Proactive Policing teams to assist local resources.

This has been a busy period for North Yorkshire Police despite the drop in the number of calls for service as the Force have had to ensure a visible presence in all parts of the Force area. Throughout the lockdown period problems with people persistently wanting to visit the area has been an area of concern and focus.

Workforce

Support services have been maintained throughout the lockdown period and from the very early stages of our COVID response we started to issue equipment to departments to allow them to continue to work from home in almost every area of the business. The department most affected by this was the ICT department who have issued stocks of equipment being held for repair and replacement alongside bringing forward some asset replacement programmes which were not due until later in 2020-21.

There has been no requirement to expand our staff to meet current demand pressures but the Force have had to re-task some teams to work in a different way, for example training staff have been used to assist with logistical problems whilst training was stopped and the Operations Planning Team have been re-tasked with running the COVID Silver Hub for the Force

The Force have used volunteers and Special Constables throughout the pandemic, and they continue to offer valuable support in a number of areas. Special Constables have been used across the Force and have so far contributed in excess of 2,300 hours of support. Volunteers have provided support in the following areas:

- NYP Stores - to enable the distribution of PPE and uniform
- HQ Covid-19 Fleet Checking - to ensure fleet is ready for deployment
- Mobile Rural Watch - continuing to provide a presence within rural North Yorkshire where there is an increase in crime.
- Covid-19 Welfare calls and Pen Pals - working in Partnership with York City Council to provide welfare calls to the most isolated.
- Operation Cracker - Eastfield Covid-19 and Crime prevention leaflet distribution

Reserves, Financial Performance and financial position

Additional costs relating to COVID of £100k have been identified in 2019/20 - these cover revenue expenditure, capital expenditure and lost income. Since then further costs and lost income have continued to be incurred, with further costs of £460k being incurred in 2020/21 (up to the 31st May 2020). These costs are being collated and reported to the Home Office for monitoring and potential re-imburement.

It is not expected that either the costs incurred to date, or those that are likely to be incurred across the remainder of 2020/21, will impact significantly on the finances of the organisation. It is likely that a slowdown in expenditure elsewhere, for example in terms of recruiting into staff vacancies, will be sufficient to absorb any additional costs of COVID if these are not funded by additional government funding.

The biggest financial challenge, resulting from COVID-19, for the organisation is likely to materialise in 2021/22 with a likely recurring, but smaller impact in the years thereafter. The impact is expected to come from reduction in Council Tax payments.

In 2020/21 the budget is built on the receipt of £81.1m from the 8 local councils in North Yorkshire who collect the Police Precept, as part of the council tax bill, and pay this over to the PFCC in line with the legislation that dictates how this happens. The £81.1m is a product of the agreed level of Police Precept - which is £265.77 for a Band D property - multiplied by the calculated level of Band D properties in North Yorkshire - which is 303,774.

The calculated level of Band D properties is made up from a number of assumptions including house building in year, households entitlement to council tax support, which leads to lower council tax bills, and collection rates (i.e. the ability of the councils to actually collect the amount of tax owed from all households).

While the actual amount paid to the PFCC will be £81.8m in 2020/21, as per the budget set, it is likely that those factors referred to above will reduce the amount that the Councils collect on behalf of Policing. The result of this is that in setting the Precept for 2021/22 the councils will determine whether the amounts they paid to the PFCC in 2020/21 equated to the amounts that they collected from council taxpayers.

This assessment of the Council Tax Collection Fund happens each year - and in each of, at least, the last 13 years there has been a collective surplus on the fund - i.e. the councils have collected more than was included within the budget - this surplus is then paid to the PFCC in the following year as per the legislation.

Similarly, if there was a collection fund deficit then the PFCC would have to pay this deficit back to the councils in the following year. Given the current circumstances then it is very difficult to imagine a scenario where there isn't a significant deficit on the collection funds across the councils that will need to be re-paid by the PFCC in 2021/22. The Government have announced on the 2nd July 2020 that the 2020/21 council tax deficit will be phased in three equal and fixed amounts across the financial years 2021-22, 2022-23 and 2023-24. The amounts to be paid off during 2021-22 will therefore be only 1/3rd of each authority's share of the estimated 2020-21 deficit.

In addition to this impact it is also likely that the calculated number of Band D properties in 2021/22 will be lower than currently forecast, which is an annual growth of 1% from the previous year's base. All of the same reasons that will impact in 2020/21 are likely to continue into, at least, 2021/22 in terms of assessing the calculated number of Band D properties in North Yorkshire.

A 5% deficit on the 2020/21 collection fund, coupled with a 2.5% reduction in the council tax base in 2021/22 (as opposed to a 1% increase) would result in council tax income being about £7.3m lower in 2021/22 than the current financial plan assumes. Even allowing for some pick up in the overall economy thereafter and therefore a reduced need for Council Tax Support and a return of house building, it would not be unreasonable to expect that future Council Tax receipts, from a Policing perspective, could be circa £3.8m per year lower than the current financial plans assume.

The financial plans will be kept under review and as more information is available will be updated - this will include scenario planning. At this stage however no changes have been made to the current plans.

As included within this report the PCC has general reserves of just over £5m and therefore some capacity, if needed, to help support the organisation during these unprecedented times. The current financial plans do not rely on any use of these general reserves already and therefore could be used to support the organisation if it needs to adjust future plans to meet a reduced financial envelope for future service delivery

Cash Flow Management

There have been no negative COVID related impacts for the Cash Flow of the organisation. In some respects, cash flow has marginally improved, in 2020/21, as a result of the government releasing grants marginally earlier than they would have been expected to have been paid.

Major Risks

The challenges and risks for policing and crime, for victims and witnesses and for the wider criminal justice system may be greater in the months ahead than they have been during the height of the pandemic and the social restrictions that were put in place during that period.

Increases in unemployment, wider social unrest, demand increases as businesses start to open again, particularly in relation to pubs and clubs, the largely hidden impact on mental health and domestic abuse during this period ultimately become apparent and as the country transitions to a new way of living, working, socialising and schooling that the gap widens between different sections of the communities.

As a result of all of these potential challenges, and many more besides, the impact on future service needs and demands therefore becomes even more challenging than normal which makes mapping and resourcing this exceptionally difficult. At this same time there is the likely reductions in funding discussed elsewhere to also factor in.

Plans for Recovery

While much discussion is focussed on the 'recovery phase' in terms of public services and the wider economy there is no significant 'recovery' needed from a policing perspective as business as usual has very much been retained throughout the pandemic so far.

Under Sections 25 and 26 of the Local Audit and Accountability Act 2014 (the Act) interested parties and local government electors have the right to inspect the Group's accounts and supporting documents, and to question the auditor, or make objections to the matters contained in them. The times at which the accounts are deposited for inspection are advertised on both the Commissioner's and the Chief Constable's websites.

Every effort has been made to ensure the accuracy of these accounts and compliance with accounting requirements.

The Group's external auditors are:

M. Porter

Michael Porter
Chief Finance Officer for the Police Fire and Crime Commissioner for North Yorkshire
Date: 22nd July 2020

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS of NYPFCC and the NYPFCC Police Group

The Responsibilities of the Police, Fire and Crime Commissioner for North Yorkshire

The Police, Fire and Crime Commissioner is required to:

- Make arrangements for the proper administration of their financial affairs and to ensure that one of their officers has the responsibility for the administration of those affairs. In this Police, Fire and Crime Commissioner's Office, that officer is the Police, Fire and Crime Commissioner's Chief Finance Officer;
- Manage their affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- Approve the Statement of Accounts.

Julia Mulligan

Police, Fire and Crime Commissioner for North Yorkshire
Date: 22nd July 2020

The Responsibilities of the Police, Fire and Crime Commissioner's Chief Finance Officer

The Chief Finance Officer is responsible for the preparation of the Police, Fire and Crime Commissioner's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom (the Code).

In preparing this Statement of Accounts, the Chief Finance Officer has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code of Practice.

The Chief Finance Officer has also:

- kept proper accounting records which were up to date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate by the Police, Fire and Crime Commissioner's Chief Finance Officer

I certify that the Statement of Accounts has been prepared in accordance with proper accounting practice and presents a true and fair view of the financial position of the Police, Fire and Crime Commissioner for North Yorkshire and of the Group at 31 March 2020, and its income and expenditure for the year then ended.

M. Porter

Michael Porter

Chief Finance Officer for the Police, Fire and Crime Commissioner for North Yorkshire
Date: 22nd July 2020.

ACCOUNTING POLICIES for the YEAR ENDED 31 March 2020 for NYPFCC and the NYPFCC Group

1. General Changes in Accounting Policy

These financial statements are prepared in accordance with the Accounts and Audit (England) Regulations 2015 and proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 (the Code) and the Service Reporting Code of Practice for Local Authorities 2019/20 (SeRCOP), supported by International Financial Reporting Standards (IFRS) and statutory guidance.

The accounts have been prepared on a going concern basis using a historical cost convention, modified by the revaluation of certain categories of non-current assets and financial instruments.

The principle accounting policies adopted are set out below.

2. Accounting Principles

Balance Sheet

All payments on behalf of the Group are made by NYPFCC from the Police Fund and all income and funding is received by NYPFCC on behalf of the Group. NYPFCC has the responsibility for managing the financial relationships with third parties and has legal responsibilities for discharging the contractual terms and conditions of suppliers.

Based on the statutory powers and responsibilities as designated by the Act, and the local agreements and practice in place, and taking account of the guidance included in the Code, it has been determined that substantially all the assets and reserves of the Group are recognised on the NYPFCC Balance Sheet. Each individual entity balance sheet includes the assets and liabilities arising from transactions included in the relevant CIES.

Comprehensive Income and Expenditure Statement (CIES)

Under the Act, CCNY is responsible to NYPFCC for the day to day provision of the policing functions, including the direction and control of police officers. With effect from 1st April 2019 staff providing Corporate Support Services (comprising Information Communications and Technology, Estates, Transport and Logistics, Corporate Communications, Legal Services and Finance) are also under the direction of CCNY.

Expenditure related to the provision of policing services by officers and staff under the direction and control of CCNY appears in the CCNY CIES. Remaining expenditure related to the provision of Projects and technical financial adjustments appears in the NYPFCC single entity CIES with effect from 1 April 2014, and is then recharged to CCNY, so that all of the Cost of Police services appears in the CCNY CIES. The Cost of Police Services is funded by a recharge to NYPFCC.

Income and funding directly controlled by NYPFCC is included in the NYPFCC single entity CIES.

The Group CIES shows the consolidated income, funding and expenditure of the whole Group.

Intra-Group Charges

NYPFCC makes charges to CCNY:

- for the use of Long-Term Assets, equivalent to the debits made to the NYPFCC CIES for the impairment, depreciation, amortisation and revaluation of the assets
- for the provision of Projects

CCNY makes charges to NYPFCC:

- for the cost of policing services

These charges are eliminated in the Group accounts.

3. Transition to International Financial Reporting Standards ("IFRS")

In 2010/11 accounts were presented in accordance with IFRS for the first time. Local authorities were required to account for the transition to IFRS in accordance with IFRS 1 First-time Adoption of International Financial Reporting Standards, except where interpretations or adaptations to fit local authorities are detailed in the Code.

The exemptions that are applicable to the Group in preparing financial statements are detailed below:

- The depreciated historical cost of an asset as at 1 April 2009 remained the depreciated historical cost of that asset as at 31 March 2009 under the Code of Practice on Local Authority Accounting in the United Kingdom 2009 - A Statement of Recommended Practice ("the SORP"), rather than requiring a retrospective review of the depreciation policy, measurement of useful life and residual cost;
- In adopting International Financial Reporting Interpretations Committee ("IFRIC") Interpretation 4 - Determining Whether an Arrangement Contains a Lease, it has been determined whether an arrangement existing as at 1 April 2009 contained a lease on the basis of facts and circumstances existing at that date. Where it has been determined that an arrangement contains a lease, that lease has been accounted for retrospectively from the commencement of the lease;
- The requirements of the Code in relation to accounting for the depreciation of significant components of an asset and the de-recognition of old components and recognition of new components have been applied to new assets completed on or after 1 April 2010 and to significant improvements to existing assets incurred from 1 April 2010.

4. New International Accounting Standards Adopted for the first time in this Financial Period

The impact of International Financial Reporting standards that apply to these accounts for the first time has been judged to not be material.

5. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Fees, charges and rents due from customers are accounted for as income at the date of provision of the relevant goods or services;
- Supplies are recorded as expenditure when they are consumed - where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet;
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made;
- Interest payable on borrowings and receivable on investments is accounted for on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract;
- Where income and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where it is doubtful that debts will be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

6. Grants and Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions are recognised as income when there is reasonable assurance that:

- the conditions attached to the payments will be complied with; and
- that the grants or contributions will be received.

Amounts recognised as due are not credited to the CIES until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income (non-ringfenced revenue grants and all capital grants) in the CIES.

Police Pension Top-Up Grant

The top-up grant receivable from the Home Office in respect of the Police Pension Fund is credited to the CIES after Net Cost of Services, as part of Taxation and Non-Specific Grant Income. The equal and opposite amounts payable to the Police Pension Fund are shown within the Other Operating Income and Expenditure line of the CIES, so that the impact on council tax payers is eliminated. This treatment is in line with the requirements of the Police Pension Fund Regulations 2007 (SI 1932/2007) (updated by SI 1887/2008).

Donated Assets

Donated assets received are recognised immediately on receipt as Property, Plant and Equipment and the value of the donation is recognised in the relevant service line in the CIES, provided that conditions have been satisfied. The fair value of donated assets received for which conditions have not been satisfied are carried in the Balance Sheet in the Donated Assets Account. When conditions are satisfied, the donation is credited to the CIES. When donation income is credited to the CIES, it is reversed out of the General Fund Balance in the Movement in Reserves Statement.

Capital Grants

Where capital grants are credited to the CIES, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

7. Employee Benefits**Short-Term Employee Benefits**

Short-term employee benefits are those due to be settled within 12 months of the year-end. They include wages and salaries, annual leave, flexitime, time-off in-lieu and re-rostered rest days and are recognised as an expense for services in the year in which employees render service. An accrual is made for the costs earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to the relevant service line in the CIES and then reversed out through the Movement in Reserves Statement so that benefits are charged to the council tax payer in the financial year in which the absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision to terminate an employee's employment before the normal retirement date, or an employee's decision to accept voluntary redundancy, and are charged on an accruals basis to the relevant service or, where applicable, to the Non-Distributed Costs line in the CIES when there is a demonstrable commitment to the termination of the employment of an employee or group of employees or to the making of an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund Balance to be charged with the amount payable to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Retirement Benefits

Officers and staff participate in pension schemes, with separate schemes for police officers and for police staff. All schemes provide members with defined benefits (retirement lump sums and pensions) related to pay and service.

The main aspects of these pension schemes are:

- (a) The attributable assets of each scheme are included in the Balance Sheet at fair value;
- (b) The attributable liabilities of each scheme are measured on an actuarial basis using the projected unit credit method - i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc. and projections of earnings for current employees;
- (c) Scheme liabilities are discounted at a rate that is determined by reference to market yields at the end of the reporting period on high quality corporate bonds;
- (d) The surplus/deficit in each scheme is the excess/shortfall of the fair value of assets in the scheme over/below the present value of the scheme liabilities;
- (e) The change in the net pensions liability for each scheme is analysed into seven components:

- Current service cost - the increase in liabilities as a result of years of service earned this year. The current service cost is stated net of employees' contributions, so as to reflect the part of the total pensions liabilities that are to be funded by the Group - allocated in the CIES to the services for which the employees worked;
- Past service costs - the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years - debited to the Surplus or Deficit on the Provision of Services in the CIES as part of Non-Distributed Costs;
- Net interest on the defined benefit liability - the change during the year in the net defined benefit liability or asset that arises from the passage of time - debited to the Financing and Investment Income and Expenditure line in the CIES;
- Return on assets - the annual investment return on the fund assets attributable to the Group, based on an average of the expected long-term return (excluding any amounts included in the net interest on the defined benefit liability) - charged to the Pensions Reserve as Other Comprehensive Income and Expenditure;
- Gains or losses on settlements or curtailments - the result of actions to relieve the Group of liabilities or events that reduce the expected future service or accrual of benefits of employees - debited or credited to the Surplus or Deficit on the Provision of Services in the CIES as part of Non-Distributed Costs;
- Actuarial gains/losses - changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions - debited to the Pensions Reserve;
- Contributions paid to the fund - cash paid as employer's contributions to the pension fund in settlement of liabilities - not accounted for as an expense.

Statutory provisions require the General Fund Balance to be charged with the amount payable to the pension funds or directly to pensioners in the year, not the amount calculated in accordance with relevant accounting standards. In the Movement in Reserves Statement, this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension funds and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

A separate statement of Police Pension Fund Accounts is prepared to reflect the transactions in respect of funding for the Police Pension Schemes.

8. Funding of Police Pension Fund

The top-up grant receivable from the Home Office in respect of the Police Pension Fund is included in the CIES. The amounts payable to the Police Pension Fund are shown within Other Operating Income and Expenditure so that the impact on council tax payers is eliminated. This treatment is in line with the requirements of the Police Pension Fund Regulations 2007 (SI 1932/2007) (updated by SI 1887/2008).

9. Value Added Tax (VAT)

Income and expenditure excludes any amounts related to recoverable VAT. All VAT collected is payable to HM Revenue and Customs and the majority of VAT paid is recoverable.

10. Overheads and Support Services

The costs of overheads and support services are charged to those services that benefit from the supply or service in accordance with the costing principles of the *CIPFA Service Reporting Code of Practice for Local Authorities* (SeRCOP). The total absorption costing principle is used - the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core - costs relating to the Group's status as a multi-functional, democratic organisation;
- Non-Distributed Costs - the cost of discretionary pension benefits awarded to employees retiring early and impairment losses chargeable on Assets Held for Sale.

These two cost categories are defined in SeRCOP and accounted for as separate headings in the CIES, as part of Net Cost of Services.

11. Segmental Reporting

Decisions about resource allocation within the Group are made using internal management reports which show net expenditure on a segmental basis, using methodologies which in some cases are different from the accounting policies in the financial statements. The cost of retirement benefits is based on payment of employers' pension contributions rather than the current service cost of benefits accrued during the year. Segment information in these financial statements is based on the Group's internal management reporting.

Internal management reporting does not include information on segment assets or liabilities and, accordingly, information on segment assets and liabilities has not been included in the notes to the accounts.

12. Jointly Controlled Operations - Regional Working

The Group engages in collaborative working in partnership with the other Yorkshire and the Humber forces (YATH) to deliver a number of specific services on a regional basis. The governance for this regional programme of activity is via a Regional Collaboration Board, constituted in accordance with the Heads of Agreement.

The YATH regional programme is a lead force model and each lead force is responsible for the financial administration of the programme they lead.

The participating Commissioners use their own resources to undertake this venture and the accounting arrangements for regional working are to account for this in line with CIPFA guidance.

- Each Commissioner accounts for the assets it controls, the liabilities it incurs, the expenses that it incurs and the income receivable in relation to amounts recharged to the venture.

The Group also engages in collaborative working in partnership with Cleveland and Durham forces for Specialist Operational Services (Evolve). The governance for this programme is via a Joint Governance Board, constituted of the Police and Crime Commissioners plus other officers of the participating forces in accordance with the section 22a agreement.

13. Property, Plant & Equipment

Property, Plant and Equipment are assets that have physical substance and are held for use in the provision of services, for rental purposes, or for administrative purposes and that are expected to be used during more than one financial year.

Recognition

All expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis (subject to a de minimus level of £5,000), provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Group and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

Where an item of Property, Plant and Equipment has major components whose cost is significant in relation to the total cost of the item, such components are separately recognised, either on initial acquisition of the assets, or when the asset is enhanced or re-valued.

Measurement

Property, Plant and Equipment are initially measured at cost, comprising:

- Purchase price;
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management;
- The initial estimate of the costs of dismantling and removing the item at the end of its useful life and restoring the site on which it is located.

Borrowing costs incurred whilst assets are under construction are not capitalised - these are debited to the CIES as incurred.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the relevant service line in the CIES, unless the donation has been made conditionally. Until conditions are satisfied, the fair value of donated assets received for which conditions have not been satisfied are carried in the Balance Sheet in the Donated Assets Account. When conditions are satisfied, the donation is credited to the CIES.

Assets acquired under finance leases are measured at their fair value or, if lower, at the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation.

Assets are then carried in the Balance Sheet using the following measurement basis:

- Land and Buildings, Police Houses, Plant and Equipment and Vehicles - fair value, determined as the lower of net current replacement cost (existing use value) and net realisable value in existing use. For non-property assets that have short useful lives or low values (or both), depreciated historical cost is used as a proxy for fair value;
- Assets in the course of construction - cost less any accumulated impairment losses until brought into use, when they are valued and reclassified.

Assets included in the Balance Sheet at fair value are re-valued sufficiently regularly to ensure that their carrying value is not materially different from their fair value at the year end, but as a minimum every five years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Gains are credited to the CIES where they arise from the reversal of a loss previously charged to a service. Where decreases in value are identified, they are accounted for as follows:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains);
- Where there is no balance in the Revaluation Reserve, or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the CIES.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only (the date of its formal inception). Gains arising before that date have been consolidated into the Capital Adjustment Account.

Revaluation gains and losses are not permitted to have an impact on the General Fund Balance. Any gains and losses charged to the CIES are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

14. Investment Properties

Investment Properties are properties that are held to earn rentals, and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or for administrative purposes. Investment Properties are measured initially at cost and subsequently at fair value.

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset takes place either:

- a) in the principal market for the asset, or
- b) in the absence of a principal market, in the most advantageous market for the asset.

NYPFCC measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. When measuring the fair value NYPFCC takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

NYPFCC uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the authority's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 - unobservable inputs for the asset or liability

Gains or losses on revaluation are debited or credited to the Financing and Investment Income line in the CIES. The same treatment is applied to gains and losses on disposal, but disposals are otherwise accounted for in accordance with Accounting Policy 19.

Revaluation and disposal gains and losses are not permitted to have an impact on the General Fund Balance. Gains are credited and losses charged to the CIES are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

All lease agreements entered into in respect of investment properties let to third parties are operating leases. Rental income from investment property is recognised on a straight-line basis over the term of the lease and is credited to Financing and Investment income and expenditure in the CIES. Any lease incentives granted are recognised as an integral part of the total rental income.

15. Assets Held for Sale

Non-current assets are reclassified as an Asset Held for Sale when it becomes probable that the carrying amount will be recovered principally through a sale transaction rather than its continuing use. This condition is regarded as met when:

- a sale is highly probable;
- the asset is available for immediate sale in its present condition;
- management are committed to the sale;
- the asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value; and
- the sale is expected to qualify for recognition as a completed sale within one year from the date of classification.

Assets Held for Sale are carried at fair value. They are revalued immediately before reclassification and then annually, using the same basis as for investment properties as set out in AP14. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the CIES. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on the Provision of Services. Assets Held for Sale are not depreciated.

If an asset no longer meets the criteria to be classified as an Asset Held for Sale, it is classified back to non-current assets and valued at the lower of:

- the carrying amount before it was classified as held for sale; adjusted for depreciation, amortisation and/or revaluations that would have been recognised had it not been classified as held for sale; and
- the recoverable amount at the date of the decision not to sell.

Assets to be abandoned or scrapped are not reclassified as Assets Held for Sale.

The eventual disposal of an Asset Held for Sale is accounted for in accordance with Accounting Policy 19.

Disposal gains and losses are not permitted to have an impact on the General Fund Balance. Gains and losses charged to the CIES are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

16. Intangible Assets

Purchased Software

Expenditure on non-monetary assets that do not have physical substance but are identifiable and controlled by the Group as a result of past events, is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset.

Expenditure on software is recognised initially at cost. Amounts are only revalued where the fair value can be determined by reference to an active market. In practice, no software licences held meet this criterion and they are therefore carried at amortised cost.

Revaluation gains and losses are not permitted to have an impact on the General Fund Balance. Any gains and losses charged to the CIES would therefore be reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

Expenditure incurred on an intangible asset after it has been recognised does not meet the recognition requirements of the Code and is charged to the Surplus or Deficit on the Provision of Services in the CIES.

All expenditure on website development is charged to the CIES, since the website is primarily intended to promote services.

Internally Generated Assets

All expenditure on the development of intangible assets is charged to the CIES, since the expenditure does not meet the recognition requirements of the Code.

Other Intangibles

At 31 March 2020 no other intangible assets were held.

17. Impairment of Tangible and Intangible Assets

This policy applies to the impairment of Property, Plant and Equipment, Investment Properties, Assets Held for Sale and Intangible Assets, modified as set out in the specific accounting policies for these categories of assets.

Tangible and intangible assets are reviewed annually to determine whether there is any indication that those assets have suffered an impairment. Where such indication exists, and if the differences are estimated to be material, the recoverable amount of the asset is estimated and an impairment loss is recognised for the shortfall (if any).

The recoverable amount is the higher of fair value (less costs to sell) and value in use. Value in use of a non-cash generating asset is the present value of the asset's remaining service potential. Value in use of a cash generating asset is the present value of the future cash flows expected to be derived from the asset.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment in respect of a non-revalued asset is recognised as an expense against the relevant service line in the CIES. An impairment loss on a revalued asset is recognised in the Revaluation Reserve to the extent that the impairment does not exceed the amount in the Revaluation Reserve for the same asset and thereafter in the CIES.

Where an impairment loss is subsequently reversed, the reversal is credited to the relevant service line in the CIES, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Impairment gains and losses are not permitted to have an impact on the General Fund Balance by statutory arrangements. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and, for any sale proceeds greater than £10,000, the Capital Receipts Reserve.

18. Disposals of Tangible and Intangible Assets

This policy applies to the disposal of Property, Plant and Equipment, Investment Properties, Assets Held for Sale and Intangible Assets, modified as set out in the specific accounting policies for these categories of assets.

When an asset is disposed of or decommissioned, the carrying value of the asset in the Balance Sheet is written off to the Other Operating Expenditure line in the CIES as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the CIES as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Where a significant separate component of an asset is replaced or restored, the carrying amount of the old component is de-recognised to avoid double counting. This includes de-recognition of significant parts of an asset not previously recognised as a separate component.

Amounts received for a disposal are categorised as Capital Receipts and are credited to the Capital Receipts Reserve (the usable element) or the Capital Adjustment Account (the set-aside element, if applicable) and can then only be used for new capital investment or set aside to reduce the underlying need to borrow (the Capital Financing Requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

Where there is deferred credit held in respect of the asset disposed off (e.g. a balance on the Donated Assets Account) this is written off to the CIES as part of the gain or loss on disposal.

Disposal gains and losses are not permitted to have an impact on the General Fund Balance by statutory arrangements. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and the Capital Receipts Reserve.

19. Depreciation of Tangible Assets and Amortisation of Intangible Assets

This policy applies to Property, Plant and Equipment and Intangible Assets, modified as set out in the specific accounting policies for these categories of assets.

Depreciation is provided for on all Property, Plant and Equipment assets with a determinable finite life (i.e. excluding Land) that are available for use by the systematic allocation of their depreciable amounts over their useful lives. Amortisation is similarly charged on Intangible Assets.

Depreciation is calculated in the following bases:

- Land is not depreciated;
- Buildings (excluding Assets under Construction) - straight line allocation over the life of the asset, as assessed by the valuer at the time of valuation. Lives used range between 20 and 50 years;
- Vehicles, Plant, Furniture and Equipment - a percentage of the value of each class of asset in the Balance Sheet. Percentages used are based on estimated lives of up to 5 years, as advised by a suitably qualified officer.

Amortisation of intangible fixed assets is calculated on the following basis:

- A percentage of the value in the Balance Sheet. Percentages used are based on finite useful lives of between 2 and 7 years, as advised by a suitably qualified officer.

Where an asset has major components with different estimated useful lives, these are depreciated or amortised separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Depreciation and amortisation are not permitted to have an impact on the General Fund Balance by statutory arrangements. The amounts charged to the CIES are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

20. Charges to the Comprehensive Income and Expenditure Statement (CIES) for the Use of Tangible and Intangible Assets

The CIES is debited with the following amounts to record the real cost of holding tangible and intangible assets during the year:

- Depreciation attributable to tangible fixed assets;
- Amortisation attributable to intangible fixed assets;
- Revaluation and impairment losses where there are no accumulated gains in the Revaluation Reserve against which they can be written off.

The Group is not required to raise council tax to cover depreciation, amortisation or revaluation and impairment losses. However, an annual provision from revenue is required to contribute towards the reduction of the overall borrowing requirement equal to an amount calculated on a prudent basis determined in accordance with statutory guidance. Depreciation, amortisation and revaluation and impairment losses are therefore replaced by the contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

21. Short-Term Investments

Short-Term Investments comprise interest-bearing deposits, held with banks and other financial institutions, maturing more than three months from the date of acquisition. They are carried at amortised cost using the effective interest method. Gains and losses are recognised in income when the deposits are derecognised or impaired, as well as through the amortisation process.

22. Inventories

Inventories are included in the Balance Sheet at average prices. Obsolete and slow moving items are written off during the year and reduce the value of inventories shown in the Balance Sheet.

This treatment differs from the requirements of the Code, which requires stocks to be shown at the lower of cost and net realisable value. It is considered that this difference in treatment does not have a material effect on the accounts.

All inventories comprise supplies that are intended for use in the provision of services.

23. Debtors

Debtors are recognised and measured at the fair value of the consideration receivable when the revenue has been recognised.

Where consideration is paid in advance of the receipt of goods or services or other benefit, a debtor is recognised in respect of the payment in advance.

In most cases, the consideration receivable is in the form of cash or cash equivalents and the amount of revenue is the amount receivable. However if payment is on deferred terms, the consideration receivable is recognised initially at the cash price equivalent. The difference between this amount and the total payments is recognised as interest revenue in Surplus or Deficit on the Provision of Services in the CIES. Short duration receivables with no interest rate are measured at the original invoice amount where the effect of discounting is immaterial.

There is no difference between the delivery and payment dates for non-contractual, non-exchange transactions (e.g. revenue from precepts) and therefore these transactions are always measured at the full amount receivable.

A provision for impairment of debtors is established when there is evidence that all the amounts due will not be able to be collected.

The amount of the provision is based on the best estimate of the likelihood of the recoverable amount. The carrying amount of the asset is reduced through the use of a doubtful debt provision account and the amount of the loss is recognised in the CIES within Cost of Services. When a debtor amount is uncollectable, it is written off against the Doubtful Debt Provision Account. Any subsequent recovery of amounts previously written off are credited to the CIES.

24. Cash and Cash Equivalents

Cash and Cash Equivalents include cash-in-hand and deposits that are repayable on demand. Cash equivalents are defined as deposits which:

- are repayable on demand or maturing within three months of the date of acquisition;
- are readily convertible to known amounts of cash; and
- are not subject to a significant risk of change in value.

For the purpose of the cash flow statement, cash and cash equivalents are shown net of outstanding bank overdrafts that are repayable on demand and form an integral part of the Group's cash management.

25. Creditors

Creditors are recognised and measured at the fair value of the consideration payable when the ordered goods or services have been received.

In most cases, the consideration payable is in the form of cash or cash equivalents and the amount of the expense is the amount payable. However if payment is on deferred terms, the consideration payable is recognised initially at the cash price equivalent. The difference between this amount and the total payment is recognised as interest expense in Surplus or Deficit on the Provision of Services in the CIES. Short duration payables with no interest rate are measured at the original invoice amount where the effect of discounting is immaterial.

There is no difference between the delivery and payment dates for non-contractual, non-exchange transactions (e.g. expense relating to council tax and general rates) and therefore these transactions are always measured at the full amount payable.

Where consideration is received in respect of revenue, but the revenue does not meet the criteria for recognition of revenue, a creditor is recognised in respect of the receipt in advance.

26. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another. The term financial instrument covers both financial assets and financial liabilities and includes both the most straightforward financial instruments (e.g. trade payables and receivables) and the most complex such as equity instruments.

Typical financial instruments are trade payables and trade receivables, borrowings, bank deposits and investments.

Financial Liabilities

Financial liabilities are initially measured at fair value and carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the CIES for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts the estimated future cash payments over the life of the instrument to the amount at which it was initially recognised. This means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest) and interest charged to the CIES is the amount payable for the year according to the loan agreement.

The Group has not given any financial guarantees.

The Group has not had any gains or losses on the repurchase or early settlement of borrowing, nor any premiums or discounts on financial liabilities.

Financial Assets

Financial assets are measured either at amortised cost or at fair value. The Group does not hold any assets measured at fair value.

Financial Assets Measured at Amortised Cost are recognised when the Group becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and carried at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line of the CIES for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. This means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the CIES is the amount receivable for the year in the loan agreement.

Immaterial Transaction Costs

Immaterial transaction costs that the Code would usually require to be applied to adjust a financial instrument's initial carrying amount are written off immediately to Surplus or Deficit on the Provision of Services line in the CIES.

The Group has not made any soft loans and no assets have been identified as impaired. There have not been any gains or losses arising on the de-recognition of a Financial Asset.

The Group has not transferred any financial assets.

Compliance

In compliance with CIPFA guidance, the Group has:

- Adopted CIPFA's Treasury Management in the Public Services: Code of Practice;
- Set treasury management indicators to control key financial instrument risks in accordance with CIPFA's Prudential Code.

27. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives rise to an obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation but where the timing of the transfer is uncertain.

Provisions are charged to the appropriate service line in the CIES in the year the Group becomes aware of the obligation and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation. When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year and where it becomes more likely than not that a transfer of economic benefits will not now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service in the CIES.

Where some or all of the payment required to settle a provision is expected to be met by another party (e.g. from an insurance claim), this is only recognised as income if it is virtually certain that reimbursement will be received if the obligation is settled.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives rise to a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Group. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but are disclosed in a note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives rise to a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Group.

Contingent assets are not recognised in the Balance Sheet but are disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

28. Leasing

Leases are classified as finance leases when the terms of the lease transfer substantially all the risks and rewards of ownership from the lessor to the lessee. Leases that do not meet the definition of finance leases are accounted for as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets. This would include Private Finance Initiative (PFI) contracts, but the Group does not have any contracts of this type.

Lessee

Finance Leases

Assets held under finance leases are recognised on the Balance Sheet at the commencement of the lease at fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The corresponding liability to the lessor is included in the Balance Sheet as a finance lease obligation. Initial direct costs are added to the carrying amount of the asset. Premiums paid are applied to write down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a finance charge debited to the Financing and Investment Income and Expenditure line in the CIES;
- a charge for the acquisition of the interest in the asset - applied to write down the lease liability.

Assets recognised under finance leases are accounted for using policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life where ownership of the asset does not transfer to the Group at the end of the lease period.

NYPFCC is not required to raise council tax to cover depreciation, amortisation or revaluation and impairment losses arising on leased assets. Instead a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory guidance. Depreciation, amortisation and revaluation and impairment losses are therefore replaced by the contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals payable under operating leases are charged to the CIES on a straight-line basis over the term of the relevant lease, even where this does not match the pattern of payments.

Benefits receivable as an incentive to enter into an operating lease are included within deferred income and recognised in the CIES on a straight-line basis over the lease term.

Lessor

No component of the Group has any assets acquired under finance leases or operating leases that have been subsequently sub-let to third parties.

The Group has not granted a finance lease over any assets.

Certain freehold properties are let to third parties. These arrangements are all operating leases and the properties are classified as Investment Property. Rental income from investment property is recognised on a straight-line basis over the term of the lease and is classified as income within the appropriate segment in the CIES, even where this does not match the pattern of payments receivable.

29. Events after the Balance Sheet Date

Events after the balance sheet date are those events, favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. There are two types of events:

- Adjusting events are those that provide evidence of conditions that existed at the end of the reporting period. Where any adjusting events are found amounts recognised in the Statement of Accounts are updated to reflect those adjusting events;
- Non-adjusting events are those that are indicative of conditions that arose after the reporting period. The Statement of Accounts is not updated for non-adjusting events, but where material, disclosure is made in the notes of the nature and estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

30. Exceptional Items and Prior Period Adjustments

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the CIES or in the Notes to the Accounts, depending on how significant the items are to an understanding of the financial performance.

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or when the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

31. Reserves

Specific amounts are set aside as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the CIES in that year to count against the Net Cost of Services. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net impact on council tax payers.

Certain reserves are kept to manage the accounting process for non-current assets, financial instruments, retirement and employee benefits. These do not represent usable resources - these reserves are explained in the relevant policies.

The Group has a policy on Provisions and Reserves. This policy was adopted by NYPFCC on 22 November 2012 and reviewed on 28 February 2017. The treatment of reserves and provisions within the accounts is in line with this policy.

32. Critical Accounting Estimates and Judgements

In applying the Accounting Policies, the Group has had to make certain judgements about complex transactions or those involving uncertainty about future events.

The following critical judgements have been made in the Statement of Accounts:

Future government funding

There is a high degree of uncertainty about future levels of funding for police services. However it has been determined that this uncertainty is not sufficient to provide an indication that the assets might be impaired as a result of a need to close facilities and/or reduce levels of service provision.

Accounting principles

As set out in Accounting Policy 2, it has been determined that substantially all assets and reserves of the Group are recognised on the NYPFCC Balance Sheet.

33. Assumptions Made about the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures based on assumptions about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Balance Sheet at 31 March 2020 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Property, Plant and Equipment

Assets are depreciated over useful lives that are dependent on assumptions about the level of maintenance and repairs that will be incurred in relation to individual assets. The current economic climate makes it uncertain whether current spending on repairs and maintenance will be sustainable, bringing into doubt the useful lives assigned to assets.

If the useful life of assets is reduced, depreciation increases and the carrying amount of assets falls. It is estimated that the annual depreciation charge for buildings would increase by £65k (PFCC £65k) for every year that useful lives had to be reduced.

Property, Plant and Equipment, Investment Properties and Assets Held for Sale.

Valuation of assets and consideration of impairment depends on a number of complex judgements and a firm of Surveyors and Valuers is engaged to provide expert advice about the assumptions to be applied. The valuation (and any impairment review) is commissioned in accordance with UKPS 1.3 of the Royal Institution of Chartered Surveyors (RICS) Valuation Standards.

When it is not possible to measure the fair value of assets using observable inputs, judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. Changes in the assumptions used could affect the fair value of assets. Significant changes in any of the unobservable inputs would result in a significantly higher or lower fair value measurement for investment properties and assets held for sale.

The effects on the asset valuation of changes in the assumptions interact in complex ways and are difficult to evaluate.

As a result of the outbreak of COVID-19 and the impact upon global financial markets, the property portfolio valuation carried out by the firm of valuers for 19-20 is reported on the basis of "material valuation uncertainty" in accordance with RICS Guidance. As a result, less certainty and a higher degree of caution should be attached to the valuation than would normally be the case. The PFCC carries out a full property revaluation on an annual basis and therefore the valuation of assets will undergo a further review for the 2020-21 Statement of Accounts.

Pensions Liability

Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. Firms of consulting actuaries are engaged to provide expert advice about the assumptions to be applied.

The actuaries have provided the following sensitivity information:

Impact on Defined Benefit Obligations	PFCC	Group	Group Police Pension Schemes
Change in Assumptions	LGPS	LGPS	
Longevity (increase or decrease by 1 year)	£0.1m	£8.4m	£9.8m
Rate of increase in salaries (increase or decrease by 0.1%)	£0.0m	£0.8m	£3.4m
Rate of increase in pensions (increase or decrease by 0.1%)	£0.1m	£5.8m	£25.8m
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	£0.1m	£6.5m	£32.2m

Provisions

A provision has been made for the settlement of ongoing claims not covered by insurers, based on claims received, historical experience of claims not received at the balance sheet date and estimated settlement values.

An increase over the forthcoming year of 10% in either the number of claims or the estimated average settlement would have the effect of adding £356k (PFCC £92k) to the provision needed.

Due to the nature of the claims experience it is difficult to make a dependable assessment of the window during which particular litigation might determine, and consequently when any cost may be incurred.

A change of 10% between long-term and current provisions would result in a change of £225k (PFCC £88k) between current liabilities and long-term liabilities.

Employee Benefits

The Group has made an accrual for employee benefits outstanding at the year-end, comprising flexitime, annual leave and re-rostered rest days. The accrual is estimated based on returns from each department and data captured from the Resource Management system.

Approximately 46% (PFCC 0%) of the accrual (£1018k) (PFCC £1k) relates to rest days in lieu (RDIL). An increase or decrease of 5% in the number of RDIL owed would change the accrual by £51k (PFCC £0k).

34. Accounting Standards that have been issued but have not yet been adopted

No standards which would be expected to impact on NYPFCC accounts have been issued but not yet been adopted at 31 March 2020.

IFRS 16 Leases will be adopted (as per the Code) with effect from 1 April 2021, as per the revised implementation date for Local Authorities. The impact on these accounts is not expected to be material, but will be assessed in due course.

2. Expenditure and Funding Analysis

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (government grants and precept) by the Group in comparison with those resources consumed or earned in accordance with generally accepted accounting practices. It shows how this expenditure is allocated for decision making processes. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Current year - Group	Note	Expenditure chargable to the General Fund	Adjustments between the funding and Accounting Basis	Net Expenditure in the Comprehensive Income and Expenditure Statement
		£'000	£'000	£'000
Targeted Grants		(4,993)	-	(4,993)
Other Income (including project income)		(10,520)	220	(10,300)
Salary Costs		124,519	30,209	154,728

Transfer between reserves and revenue	4		(3,219)	
Utilisation of reserves to fund capital	20		1,777	
			5,214	

Details of the main adjustments between the funding and accounting basis are set out in Note 3.

3. Supplementary information to the Expenditure and Funding Analysis

This note provides details of the main adjustments to Net Expenditure Chargeable to the General Fund to arrive at the amounts in the Comprehensive Income and Expenditure Statement. The relevant transfers between reserves are explained in the Movement in Reserves Statement.

Adjustments for Capital purposes:

This column adds in depreciation and impairment and revaluation gains and losses to the Net Cost of Services, and removes the statutory charges for the financing of capital. It also adjusts:

* Other Operating Income for the net book value and disposal proceeds of capital disposals

* Financing and Investment Income and Expenditure for movement in the market value of Investment Properties: and

* Taxation and Non-Specific Grant Income for capital grants and notional income in relation to donated assets

Many of the entries in this column come from the Capital adjustment Account (See note 5(b))

Net change for the Pensions Adjustments:

This column removes employer pension contributions made from the Net Cost of Services and replaces with current and past service costs. It also adds the net Interest on the defined benefit liability to Financing and Investment Income and Expenditure.

Other Differences:

This column includes the adjustments between the charges under statutory regulations to council taxpayers and the amounts recognised in the accounts under generally accepted accounting principles (see also Note 1). This column also includes the impact of the recharges to CCNY for Corporate Services and the use of Long Term Assets.

Current year - Group	Adjustments for Capital Purposes	Net change for the Pension Adjustments	Other Differences	Total Adjustments

Collection Fund Adjustment Account	5d	500	634
Accumulated Absences Account	5e	(14)	(221)
Total Unusable Reserves		30,877	31,667

5 (a) Revaluation Reserve

The Revaluation Reserve contains the gains made by the Group arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

Group and PFCC	Note	2019/20	2018/19
		£'000	£'000
Balance at 1 April		1,402	1,286
Surplus or (deficit) on revaluation of non-current assets not posted to Surplus or Deficit on the Provision of Services	20c	239	176
Difference between fair value and historical cost depreciation	5b	(75)	(60)
Accumulated gains on assets sold or scrapped	5b	(257)	-
Balance at 31 March		1,309	1,402

5 (b) Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Group.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 1 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

Capital Adjustment Account

Group and PFCC	Note	2019/20 £'000	2018/19 £'000
Balance at 1 April		32,815	36,314

Statutory provision for the repayment of debt		369	395
Adjusting amounts written out of the Revaluation Reserve	5a	332	60
Use of the Capital Receipts Reserve to finance new capital expenditure	20a	1,006	839
Capital expenditure charged against the General Fund	20a	105	1,777
Total other movements		1,812	3,071
Balance at 31 March		29,458	32,815

5 (c) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Group accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Group makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Group has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

Group	2019/20	2018/19
	£'000	£'000
Balance at 1 April	(1,819,887)	(1,671,391)
Remeasurements of pension assets and liabilities	196,353	(7,138)
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(106,356)	(158,911)
Employer's pension contributions and direct payments to pensioners payable in the year	24,781	17,553
Balance at 31 March	<u>(1,705,109)</u>	<u>(1,819,887)</u>

PFCC	2019/20	2018/19
	£'000	£'000
Balance at 1 April	(2,963)	(3,083)
Remeasurements of pension assets and liabilities	2,869	2,598
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(442)	(2,748)
Employer's pension contributions and direct payments to pensioners payable in the year	160	270
Balance at 31 March	<u>(376)</u>	<u>(2,963)</u>

5 (d) Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of precept income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

Group and PFCC	2019/20	2018/19
	£'000	£'000
Balance at 1 April	634	697
Amount by which precept income credited to the Comprehensive Income and Expenditure Statement is different from precept income calculated for the year in accordance with statutory requirements	(134)	(63)
Balance at 31 March	<u>500</u>	<u>634</u>

5 (e) Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

Group	2019/20	2018/19
Balance at 1 April	(1,803)	(2,074)
Settlement or cancellation of accrual made at the end of the preceding year	1,803	2,074
Amounts accrued at the end of the current year	(2,210)	(1,803)
Amounts by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	(407)	271
Balance at 31 March	(2,210)	(1,803)

PFCC	2019/20 £'000	2018/19 £'000
Balance at 1 April	(221)	(185)
Settlement or cancellation of accrual made at the end of the preceding year	221	185
Amounts accrued at the end of the current year	(14)	(221)
Amounts by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	207	(36)
Balance at 31 March	(14)	(221)

6. Leases

The Group as Lessee

The Group leases a number of properties, which have been accounted for as operating leases. The total rentals payable in 2019/20 were £282k (PFCC £nil) (2018/19 £253k, PFCC £237k).

The Group uses certain other equipment financed under an operating lease. The amount paid in 2019/20 was £81k (PFCC £0.8k) (2018/19 £90k, PFCC £90k).

The movement between the PFCC and CC in 2019/20 has arisen due to the Stage 2 Transfer of Corporate Services, which took place on 1st April 2019, moving these costs to CC.

Commitments under Operating Leases

At the balance sheet date the Group was committed to making total payments of £1.653m (PFCC £3.7k) (2018/19 £1.18m, PFCC £1.16m) under operating leases:

Selby	8,007	7,086
York	17,407	15,809
Total	77,297	69,660

13. Remuneration Report

13 (a) Remuneration of Senior Officers

In setting the conditions of service of Senior Officers the Police, Fire and Crime Commissioner has regard to the following factors:

- the need to recruit, retain and motivate suitably qualified people to carry out their different responsibilities;
- regional/local variations in labour markets and their effects on the recruitment and retention of staff;
- differences in terms and conditions of employment between the public and private sector and taking account of relative job security and value of benefits in kind;
- changes in national pay systems, including flexibility and the reward of success, and job weight in differentiating the remuneration of particular posts;
- the relevant legal obligations, including anti-discrimination legislation regarding age, gender, race, sexual orientation, religion and belief and disability.

Total remuneration of senior police officers comprises elements that are set centrally for all police forces in the UK and other elements that are set locally. Pay elements that are set centrally include base salary, accommodation allowances and pension benefits. Centrally-set elements for serving police officers are determined in accordance with the Police Regulations 2003 (as amended).

For the purposes of this report the senior officers comprised the following personnel during the year:

- Police, Fire and Crime Commissioner
 - Deputy Police and Crime Commissioner
 - Chief Constable *
 - Deputy Chief Constable *
 - Assistant Chief Constables *
 - Chief Executive Officer
 - Police, Fire and Crime Commissioner's Chief Finance Officer
 - Chief Constable's Chief Finance Officer
 - Head of Finance and Chief Constable's 151 Officer
 - Managing Director of Enable
- * *serving police officers.*

Where applicable disclosures are also provided for employees who have fulfilled the above roles on a temporary or acting basis.

	2019/20 Group £'000	2019/20 PFCC £'000	2018/19 Group £'000	2018/19 PFCC £'000
Salaries and short-term benefits	893	124	622	122
Post-employment benefits	210	2	96	2
Total	1,103	126	718	124

13 (b) Remuneration of Other Employees

Levels of pay for other employees are determined in accordance with the following:

- Police officer remuneration is determined in accordance with the Police Regulations 2003 (as amended);
- Remuneration of support staff is agreed by the Police Support Staff council.

13 (c) Remuneration Entitlements of Senior Officers

Salary

Pay and allowances for the Police, Fire and Crime Commissioner are set by the Home Office acting on the advice of the Senior Salaries Review Board. Basic salary for serving police officers is determined and approved by the Secretary of State for the Home Office each year. Salaries are set for all police officers of all ranks up to and including Chief Constables. Pay reviews are carried out each year and any increases are applicable from 1 September. Pay reviews for other senior officers are agreed with the Police Support Staff Council. Any increases are usually applicable from 1 September.

Other Allowances and Benefits

Other allowances and benefits include allowances and expenses paid, in addition to basic salary, that are chargeable to UK income tax. They comprise the following:

- Accommodation allowance;
- Car available for private use or car allowance paid as additional salary;

Accommodation allowances are a historic payment and were paid to police officers who resided in their own accommodation as opposed to Police Houses. They are not paid to any police officers joining the Force after April 1995, other than those that may be transferred from other Forces and who are already in receipt of accommodation allowances.

Allowances

For the purposes of the disclosures that follow, amounts disclosed as allowances are those that are included with salary.

The Commissioner and the Chief Constable are committed to ensuring that Chief Officer remuneration terms are clear and lawful and that public policy standards are met.

Benefits in Kind

Benefits in kind include the estimated value of any benefits that are provided to senior officers in forms other than cash. During the year benefits in kind included the cash equivalents of cars provided to senior officers, and relocation allowance in accordance with Police Regulations, as disclosed to HM Revenue and Customs on form P11D. Benefits in kind do not include business use of private vehicles.

Pension Benefits

The Group makes pension contributions on behalf of Senior Officers and Staff who are members of pension schemes. Employer contributions are at the same rates for all members of the schemes, irrespective of rank or salary, and are determined by the Actuaries. During 2019/20 the rates were 31% for the Police Pension Schemes (2018/19 24.2%) .

The Actuaries confirmed the rates for the Chief Constable as 11.3% and 3.9% for the PCC Local Government Pension Schemes (2018/19 11.3% and 3.9%)

The pension figure included in the disclosures below represents the value of the employer's pension contribution to the senior officer's pension pot, in whichever scheme he/she is a member.

Police Officers

Those members of the senior officer team who are also serving police officers are eligible to join the Police Pension Schemes. During 2018/19 senior officers who elected to join were either members of the Police Pension Scheme 1987 or the Police Pension Scheme 2015.

The Police Pension Scheme 1987 is a defined benefit scheme, providing pension benefits linked to final salary. The scheme is a 40/60ths scheme, with a full pension payable under the scheme after 30 years' service. The maximum pension payable is 40/60ths of salary. The accrual rate for the scheme is 1/60th of salary for each year worked for the first 20 years service and 2/60ths for each year for the following 10 years and nil thereafter. At retirement members may opt to give up (commute) part of their pension entitlement in return for a lump sum cash payment.

Senior officers' contributions are currently at the rate of between 13.78% and 15.05% of pensionable salary. (See Police Pension Fund Account and Note 28 to the accounts for further information on the Police Pension schemes).

The Police Pension Scheme 2015 is a Career Average Revalued Earnings (CARE) scheme rather than a final salary scheme. For each year a member contributes they will earn a fraction of their Pensionable Earnings (1/55.3) for that year as earned pension and this will be revalued for each subsequent year until they retire. A member has the option to retire at the normal minimum pension age (55) however if they were to do so their pension would be actuarially reduced by reference to the normal pension age (60). At retirement members may opt to give up (commute) part of their pension entitlement in return for a lump sum cash payment.

Other Senior Officers

Those members of the Senior Officer team who are not serving police officers are eligible to participate in the Local Government Pension Scheme ("LGPS"). During 2019/20 all eligible senior officers except the Police, Fire and Crime Commissioner were members of the scheme.

The scheme is a defined benefit scheme, providing pension benefits linked to final salary. The current scheme provides for an accrual rate of 1/60th of salary for each year of service up to 31 March 2014. Thereafter the accrual rate is 1/49th. There is no time limit to the amount of service that can be built up but benefits must be taken by age 75. At retirement members may opt to give up (commute) part of their pension entitlement in return for a lump sum cash payment. Senior officers' contributions are currently at the rate of between 4.25% and 11.4% pensionable salary dependent on which scheme the officer sits within. (See Note 28 to the accounts for further information on the Local Government Pension Scheme).

13 (d) A summary of Senior Officer Remuneration for the year ended 31 March 2020 is presented below:

	Salary	Benefits in kind	Allowance	Value of employers pension contribution	Termination Benefits	Total
	£'000	£'000	£'000	£'000	£'000	£'000

Total	600	9	13	96	-	718

* CFO - Chief Finance Officer

C Irvine has been a Temporary Assistant Chief Constable since 19/11/18. This function is discharged via a collaboration agreement with Cleveland Police and Crime Commissioner (CPCC) and the Temporary ACC's remuneration is reflected in CPCC's accounts. During 2018/19 £51k (2017/18 £nil) was incurred in respect of this contract.

The Commissioner's Chief Finance Officer is M Porter. This function is discharged via a collaboration agreement with Cleveland Police and Crime Commissioner (CPCC) and the CFO's remuneration is reflected in CPCC's accounts. During 2018/19 £53k (2017/18 £52k) was incurred in respect of this contract.

The Acting Chief Executive Officer up to 31 March 2019 was F. Sampson. This function was discharged via West Yorkshire Police and Crime Commissioner (WYPCC) and the Acting CEO's remuneration is reflected in WYPCC's accounts. During 2018/19 £149k (2017/18 £145k) was incurred in respect of this contract. With effect from 1st April 2019 this function will be discharged via a collaboration agreement with Cleveland Police and Crime Commissioner (CPCC).

13 (e) Officers and Staff

A breakdown of the number of persons of each gender was as follows:

	2019/20 Group		2019/20 PFCC		2018/19 Group		2018/19 PFCC	
	As at 31 March	As at 31 March	As at 31 March	As at 31 March	As at 31 March	As at 31 March	As at 31 March	As at 31 March
	Male	Female	Male	Female	Male	Female	Male	Female
Senior Officers	5	5	1	1	2	4	1	1
Other employees	1,504	1,313	5	23	1,473	1,312	119	111
	1,509	1,318	6	24	1,475	1,316	120	112

The number of individuals, excluding senior officers, who have received total remuneration greater than or equal to £50,000 per annum (in bands of £5,000) are listed below. The figures below represent the amounts paid in each year, taking account of starting and leaving dates, where retiring staff have been replaced during the year, and include officers seconded to other Forces. Total remuneration comprises gross salaries and allowances, taxable benefits as declared to HM Revenue and Customs on form P11D, and any bonus or overtime amounts in relation to the year in question (paid or payable). Total remuneration excludes any termination benefits payable and does not include employer's pension or national insurance contributions.

The table includes 174 police officers (2018/19 147) at or below the rank of Chief Superintendent.

Total remuneration	2019/20	2019/20	2018/19	2018/19
	Group	PFCC	Group	PFCC
£50,000 to £54,999	75	-	88	1
£55,000 to £59,999	79	-	43	3
£60,000 to £64,999	10	-	6	1

14. Other Amounts Credited/Charged to the Comprehensive Income and Expenditure Statement

14 (a) Movement in Provisions

The movement in provisions is detailed in Note 27.

14 (b) Inventories Expensed during the Period

	2019/20 Group £'000	2019/20 PFCC £'000	2018/19 Group £'000	2018/19 PFCC £'000
Uniforms/other items	425	43	370	19
Garage	319	-	288	268
Write-down of inventories recognised	(1)	-	-	-
Total inventory charges recognised in the Comprehensive Income & Expenditure Statement	743	43	658	287

There were no reversals of any previous write-down in inventories.

14 (c) Sponsorship

The Police, Fire and Crime Commissioner has the power to receive gifts, loans of property and sponsorship. The guideline limit for income of this type is up to 1% of the annual net revenue budget (2019/20 limit £1.5m). Sponsorship payments and other contributions are made under specific agreements that record the link between the income and the relevant expenditure. The income may be utilised within the year or carried forward to be available in the next year if appropriate. During the year £20k (2018/19 £21k) was retained in the sponsorship and donation accounts. The income was relevant to expenditure made in 2019/20, the expenditure was primarily focused on crime reduction through engagement initiatives. £12k (2018/19 £13k) has been carried forward into 2020/21.

14 (d) Police Fire and Crime Commissioner Costs

Costs of the Police Fire and Crime Commissioner were:

Group and PFCC	2019/20 £'000	2018/19 £'000
PFCC and Deputy PCC (including Ers NI and expenses)	166	156
Statutory Officers	235	212
Panel Costs / Members Costs	2	2
Support : Employees Costs	349	363
Support : Other Costs	55	53
External Audit Fees	22	25
Internal Audit Fees	35	34
Subscriptions	29	31
Community Engagement	47	72
Other	10	9
	950	957
Recharges to North Yorkshire Fire and Rescue Authority	(68)	(33)
Total Expenditure	882	924

14 (e) Audit Fees

The Group incurred the following fees relating to external audit and inspection.

	2019/20 Group £'000	2019/20 PFCC £'000	2018/19 Group £'000	2018/19 PFCC £'000
External Audit Fees	35	22	37	25
Total	35	22	37	25

14 (f) Grant Income

In addition to the grants included in Taxation and Non-Specific Grants Income (Note 11), the Group credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement in 2019/20:

Group and PFCC	2019/20 £'000	2018/19 £'000
Credited to Services		
Counter-Terrorism	755	755
Criminal Records Bureau	658	569
Domestic Violence Coordinators	63	63
Commissioning of Victim Support Services	881	880
Independent Domestic and Sexual Violence Advisors	50	90
Economic Crime Unit	200	96
Alcohol Abstinence	-	296
Child Sexual Assault Services	66	65
Police Transformation Fund	-	163
Violence against Women and Girls	98	561
Direct Entry Superintendents	-	12
ANPR	-	30
National Force Specialist Cyber Crime	177	135
Police Special Grant	-	614
Operation Uplift Grant	280	-
3D Laser Scanning	46	-
Pension Grant	1,449	-
No Wrong Door	39	-
Victims of Assault Service Transformation Grant	122	-
Trusted Relationships	31	-
Apprenticeship Levy Grant	40	-
Sundry Grants £30k or less	39	55
Total Credited to Services	4,994	4,384

The Group has received a number of grants that have yet to be recognised as income as they have conditions attached to them which have not been met during the year. At 31 March 2020 current liabilities include £110k (PFCC £32k) (2018/19 £115k, PFCC £115k) in respect of Revenue Grants received in advance and £751k (PFCC £751k) in respect of Capital Grants received in advance (2018/19 £1207k, PFCC £1207k).

15. Partnership Arrangements

15 (a) Local Criminal Justice Board (LCJB)

The Group provides financial management on behalf of the LCJB, which is a combined Board made up of Criminal Justice Agencies.

During 2019/20 the Group did not receive any funding (2018/19 £nil) from the Office for Criminal Justice Reform on behalf of the LCJB. Group expenditure of £36k (PFCC £nil) (2018/19 £35k, PFCC £nil) has been incurred in 2019/20 and included in these accounts.

15 (b) Regional Collaboration

Regional Collaboration brings opportunities to the participating Forces across many policing activities whilst retaining local Police Forces, local identity and local accountability.

Yorkshire and the Humber (YATH)

The Group continued to engage in collaborative working throughout 2019/20 with the other YATH forces (South Yorkshire, West Yorkshire and Humberside). Collaborative activity includes Specialist Crime Services, Forensic Services, Underwater Search and Procurement Services. The Regional Collaboration Board for the YATH Collaboration comprises the four Police and Crime Commissioners plus officers from each of the participating forces. It was formed to support Section 23 of the Police Act 1996/Police and Justice Act 2006.

The YATH Regional Collaboration is funded from contributions made by the four participating forces. Where there is deemed to be equal benefit the contribution is based on equal shares. Where benefit is not deemed to be equal, the level of contribution from each Force is dependent upon an assessment of the benefit to be derived from each specific project or initiative, primarily based upon net revenue expenditure proportions.

The YATH programme is a lead force model and each lead force is responsible for the financial administration of the programme they lead. The lead force employs police staff on a permanent, substantive basis and Police Officers are seconded to the lead force. The Police and Crime Commissioners within the Yorkshire and Humberside Region have agreed to indemnify the lead force to ensure that any costs are shared between them in the event of any employment tribunal or civil court claims related to regional employment.

The total net expenditure of this Group during 2019/20 in relation to the Yorkshire and the Humber regional collaboration work was £5.03m (PFCC £nil) (2018/19 £4.6m, PFCC £nil).

Evolve

The Group continued to engage in collaborative working throughout 2019/20 with Cleveland and Durham forces for Specialist Operational Services (Evolve). This includes the Major Crime Investigation Team and Collaborative Legal Services. Collaborative working for the Integrated Dog Support Unit ceased with effect 31st December 2019.

The Joint Governance Board comprises the three Commissioners plus officers from each of the participating forces. The collaboration is funded from contributions made by the three participating forces. The Evolve programmes is a lead force arrangement. The lead force employs some of the staff on a permanent substantive basis. Officers and some staff are seconded to the lead force. The total net expenditure of this group during 2019/20 in relation to the Evolve collaboration was £2.6m (PFCC £nil) (2018/19 £2.7m PFCC £40k).

Other collaborations:

During 2019/20, the Group has also participated in collaborative activity with all seven forces in the North East Region. The total net expenditure of this group during 2019/20 in relation to these additional collaborations was £74k (PFCC £nil) (2018/19 £63k, PFCC £nil),

Regional Collaboration costs have had the following impact on the Group Cost of Police Services (PFCC £40k, 2018/19 £40k) shown on the face of the CIES:

Current Year - Group	Group Expenditure	Group Income	Net Impact
	£'000	£'000	£'000
Employee Costs Salaries	2,978	-	2,978
Other Non Salary employee costs	3	-	3
Supplies and Services (includes PCC £40k)	5,672	-	5,672
Transport Costs	81	-	81
Non Grant income	-	(1,074)	(1,074)
Total	8,734	(1,074)	7,660

Prior Year - Group	Group Expenditure £'000	Group Income £'000	Net Impact £'000
Employee Costs	2,824	-	2,824

Net Book value as at 31 March 2019	30,142	833	5,227	3,847	103	40,152

Net book value at 31 March 2019 can be analysed as follows:

Property, Plant and Equipment	40,049
Assets under Construction	103
	40,152

Land and Buildings (police stations and other commercial properties plus police houses) are measured at existing use value - all properties were valued at 31 March 2020. The valuations are undertaken by an external valuer in accordance with the RICS Valuation Standards ("The Red Book") published by the Royal Institution of Chartered Surveyors, using significant unobservable inputs (Level 3 of the Fair Value Hierarchy).

The depreciation charge for the year, amounting to £5.07m (PFCC £5.07m) (2018/19 £5.086m, PFCC £5.086m), has been charged to the Comprehensive Income and Expenditure Statement across all lines within Net Cost of Services.

Land and Buildings include a Police Box valued at £5k (2018/19 £5k) which is not being depreciated on the advice of valuers.

17. Investment Property

Movements in Investment Property during the year are shown below:

Group and PFCC	Note	2019/20 £'000	2018/19 £'000
Balance at 1 April		344	330
Reclassification from Property, Plant & Equipment	16	-	-
Revaluations included in CIES	20c	44	14
Balance at 31 March		388	344

All investment properties are freehold. Investment properties are those held to earn rentals or for capital appreciation or both, rather than for use in the provision of services or for administrative purposes. All investment properties are either unlet or let to tenants under operating leases.

100% (2018/19 100%) of investment properties have been measured at fair value at 31 March using significant unobservable inputs (Level 3 of the Fair Value Hierarchy) by an external valuer in accordance with the RICS Valuation Standards. The valuer has used a market approach to valuing the assets.

There has been no change in valuation techniques used for investment properties during the year, and no investment properties have moved between valuation hierarchy levels during the year (2018/19 none).

At the balance sheet date the Group held a total of 4 investment properties (PFCC 4) (2018/19 4, PFCC 4). All these properties were previously operational properties which are no longer required for operational purposes.

18. Intangible Assets

Intangible Assets comprise purchased software only. Movements during the year are shown below:

Group and PFCC	2019/20 £'000	2018/19 £'000
Cost		
Balance at 1 April	9,899	9,429
Additions - purchased	367	470
Reclassifications	-	-
Impairment	(270)	-
Balance at 31 March	9,996	9,899
Amortisation		
Balance at 1 April	(7,761)	(6,709)
Charge for the year	(844)	(1,052)
Balance at 31 March	(8,605)	(7,761)
Net Book Value at 31 March	1,391	2,138

The amortisation charge for the year, amounting to £844k (PFCC £844k) (2018/19 £1052k, PFCC £1052k), has been charged to the Comprehensive Income and Expenditure Statement within Financial Costs.

19. Assets Held for Sale

Group and PFCC		2019/20	2018/19
	Note	£'000	£'000
Balance at 1 April		2,210	2,330
Assets reclassified to Property, Plant and Equipment	16	-	-
Assets reclassified from Property, Plant and Equipment	16	2,414	-
Disposals		(578)	-
Revaluations	20c	120	(120)
Balance at 31 March		4,166	2,210

20. Analysis of amounts in relation to Non-Current Assets**20 (a) Financing of Non-Current Assets**

The additions to non-current assets totalled £4.258m (PFCC £4.258m) (2018/19: £3m, PFCC £3m). The table below shows the resources that have been used to finance the additions. Where capital expenditure is to be financed in future years by charges to revenue, the expenditure results in an increase in the Capital Financing Requirement (CFR). The CFR is a measure of the capital expenditure incurred historically that has yet to be financed.

Group and PFCC		2019/20	2018/19
	Note	£'000	£'000
Capital Expenditure was incurred across the following categories:			
Property, Plant and Equipment	16	3,891	2,576
Intangible Fixed Assets	18	367	470
		4,258	3,046
Sources of finance:

Donation Income	5b	-	-
Borrowing (Internal)		2,095	-
		4,258	3,046
Group and PFCC		2019/20	2018/19
		£'000	£'000
Opening Capital Financing Requirement		10,225	10,620
Increase (decrease) in underlying need to borrowing (supported by government financial assistance)		-	-
Increase (decrease) in underlying need to borrowing (unsupported by government financial assistance)		1,726	(395)
Assets acquired under Finance leases		-	-
Closing Capital Financing Requirement		11,951	10,225

20 (b) Major Capital Schemes

The major items of capital expenditure are detailed in the table below:

Group and PFCC Description	2019/20 £'000	2019/20 £'000	2018/19 £'000	2018/19 £'000
Rolling Programmes		1,848		1,583
ICT Strategy - Major Schemes		214		447
Estates Strategy - Major Schemes				
- Major works (below £200k)	627		125	
- Alverton Court Works	-		-	
- Fulford Road	254		-	
- Joint Transport and Logistics hub	378		-	
- Tadcaster	288		-	
- Vale House	338		-	
- FCR Fallback Harrogate	211		-	
- TSU Relocation /Refit	-		-	
Total Estate Strategy - Major Schemes		2,096		125
Purchase of freehold		-		-
Safety Camera Van Expansion		24		99
FCR Expansion		26		616
Other Schemes (Below £200K)		50		176
Total		4,258		3,046

20 (c) Revaluation

The revaluations have had the following impact on these accounts:

Current Year - Group and PFCC	Land and Buildings £'000	Police Houses £'000	Sub Total £'000	Investment Properties £'000	Assets Held for Sale £'000	Total £'000
Revaluation charged/(credited) to Revaluation Reserve	(180)	(59)	(239)	-	-	(239)
Revaluation charged/(credited) to Income and Expenditure	(417)	-	(417)	(44)	(120)	(581)
Total	(597)	(59)	(656)	(44)	(120)	(820)
Cost	649	(9)	640	(44)	(120)	476
Depreciation	(1,246)	(50)	(1,296)	-	-	(1,296)
Total	(597)	(59)	(656)	(44)	(120)	(820)

Prior Year - Group and PFCC	Land and Buildings £'000	Police Houses £'000	Sub Total £'000	Investment Properties £'000	Assets Held for Sale £'000	Total £'000
Revaluation charged/(credited) to Revaluation Reserve	(140)	(36)	(176)	-	-	(176)
Revaluation charged/(credited) to Income and Expenditure	511	-	511	(14)	120	617
Total	371	(36)	335	(14)	120	441
Cost	1,339	8	1,347	(14)	120	1,453
Depreciation	(968)	(44)	(1,012)	-	-	(1,012)
Total	371	(36)	335	(14)	120	441

At 31 March 2020 the cost or valuation of assets subject to revaluation can be analysed as follows (all other assets are held at cost):

Group and PFCC	Land and Buildings £'000	Police Houses £'000	Sub Total £'000	Investment Properties £'000	Assets Held for Sale £'000	Assets Under Construction £'000	Total £'000
Properties last revalued at:							
31 March 2020	28,994	842	29,836	388	4,166	-	34,390

At 31 March 2020 the carrying amount that would have been recognised had the assets been carried under the cost model can be analysed as follows:

	Land and Buildings £'000	Police Houses £'000	Sub Total £'000	Investment Properties £'000	Assets Held for Sale £'000	Assets Under Construction £'000	Total £'000
Carrying Amount 31 March 2020	27,397	418	27,815	341	4,812	223	33,191

20 (d) Impairment

Property, Plant and Equipment, Investment Properties and Assets Held for Sale

All properties were valued at 31 March 2020, and no separate assessment has therefore been made for impairment.

Intangible Assets

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use of the PFCC and Group.

At 31st March 2020 Intangible Assets have been impaired by £270k. This impairment loss has been recognised in the CIES.

20 (e) Amounts Charged to Comprehensive Income and Expenditure Statement

Group and PFCC	Note	2019/20	2018/19
		£'000	£'000
Depreciation of Property, Plant and Equipment	16	5,070	5,086
Revaluation charge to Net Cost of Services	20c	(417)	511
Surplus / deficit on disposal	9	(456)	(74)
Sub-Total Property, Plant and Equipment		4,197	5,523
Amortisation of Intangible Fixed Assets	18	844	1,052
Impairment		270	-
Revaluation Investment Properties	20c	(44)	(14)
Revaluation Assets Held for Sale	20c	(120)	120
Total		950	1,158
Included in net cost of services		5,767	6,649
Included in other operating income and expenditure		(576)	46
Included in finance and Investment Income and Expenditure		(44)	(14)
Total		5,147	6,681

20 (f) Capital Commitments

At 31 March the Group was committed to the following capital expenditure:

Group and PFCC	31 March 2020	31 March 2019
	£'000	£'000
Plant and Equipment	1,291	1,158
Fleet Vehicles	158	512
Estates Transformation Programme Improvements	803	664
Other schemes (below £200k)	30	5
Total as at 31 March	2,282	2,339
Capital commitments related to the following asset categories:		
Property, Plant and Equipment	2,252	2,334
Intangible Assets	30	5
Total	2,282	2,339

The Group had no commitments in relation to repairs or maintenance at the year-end (PFCC £nil) (2018/19: £nil, PFCC £nil).

21. Financial Instruments

	Long-term		Current		Current	
	31 March 2020	31 March 2019	31 March 2020	31 March 2019	31 March 2020	31 March 2019

Fair Value of Assets and Liabilities Carried at Amortised Cost

Financial liabilities and financial assets represented by loans and receivables are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows, that take place over the remaining life of the instruments, using the following assumptions:

- For Public Works Loan Board (PWLB) and other loans payable, the discount rate used is the PWLB rate for new borrowing;
- No early repayment or impairment is recognised;
- Where an instrument has a maturity of less than 12 months or is a trade or other receivable, the fair value is taken to be the carrying amount or the billed amount;
- The fair value of trade and other receivables is taken to be the invoiced or billed amount.

The fair value of each class of financial assets and liabilities which are carried in the Balance Sheet at amortised cost is disclosed below.

Financial Liabilities - carried at amortised cost

Current and Long-Term

Group	31 March 2020		31 March 2019

Value Added Tax	983	978
Payments in advance	8	1,713
Total as at 31 March	<u>13,236</u>	<u>15,373</u>

Other Local Authorities (including Police and Crime Commissioners) includes £493k (PFCC £nil) (2018/19 £573k, PFCC £nil) in respect of regional collaboration with other Police and Crime Commissioners (see note 15(b)). All debtors at the end of the current and previous year are due within one year.

Movement in the provision for doubtful debts during the year was as follows:

	2019/20	2019/20	2018/19	2018/19
	Group	PFCC	Group	PFCC
	£'000	£'000	£'000	£'000
Balance at 1 April	(1,710)	(1,710)	(1,684)	(1,684)
Written off as uncollectable	4	4	(5)	(5)
Recovered during the year	-	-	-	-
Provided against in year	(58)	(58)	(21)	(21)
Balance at 31 March	<u>(1,764)</u>	<u>(1,764)</u>	<u>(1,710)</u>	<u>(1,710)</u>

The provision includes an amount of £1,737k (2018/19 £1,679k) in respect of provision against precept due from Council Tax Payers of £3,803k (2018/19 £3,490k). These amounts will be collected on behalf of NYPFCC by the Local Authorities and the required provision is calculated by them.

The Group does not generally allow extended credit for customers. £573k (PFCC £25k) (2018/19 £241k, PFCC £188k) of the £957k (PFCC £41k) (2018/19 £1.131m, PFCC £689k) listed debtors balance is past its due date for payment. The past due amount can be analysed as follows:

	31 March 2020 Group £'000	31 March 2020 PFCC £'000	31 March 2019 Group £'000	31 March 2019 PFCC £'000

Banking Arrangements

The Group (PFCC) has the following facilities with North Yorkshire Barclays Corporate:

- BACS £24,500,000
- Company Barclaycard £215,000
- Business Internet Banking £10,000,000

The Group (PFCC) holds two current accounts, one is a holding account from which wages and salaries are paid, the other is for general banking and at the end of each day cleared balances are automatically swept into the Business Premium account.

25. Borrowing

Group and PFCC	31 March 2020	31 March 2019
	£'000	£'000
Balance at 1 April	6,000	-
New loans received - Public Works Loans Board	-	6,000
	6,000	6,000
Repayments	-	-
Balance at 31 March	6,000	6,000
Short-term	-	-
Long-term	6,000	6,000
Balance at 31 March	6,000	6,000

Maturity at 31 March	31 March 2020	31 March 2019
	£'000	£'000
One to Two Years	-	-
Two to Five Years	-	-
Five to Ten Years	2,000	2,000
Over Ten Years	4,000	4,000
	6,000	6,000

Borrowing at 31 March 2020 was equivalent to debt outstanding of £7.28 (2019 £7.32) per head of population.

Interest rates vary between 2.13% and 2.61% pa. The weighted average rate is 2.45%. All loans are at fixed rates and repayable in full at maturity.

26. Creditors

Group	31 March 2019	31 March 2018

Total as at 31 March	16,563	15,630

PFCC	31 March 2020	31 March 2019
Amounts due:	£'000	£'000
Intragroup creditors	13,116	12,175
Central government bodies	23	39
Other local authorities (including Police and Crime Commissioners)	1,893	468
Public corporations and trading funds	-	-
NHS Bodies	-	69
HMRC employment taxes and national insurance	22	187
Other creditors external to government	423	2,244
Income received in advance	530	480
Grants received in advance	-	-
Capital Grants In Advance	751	1,207
Total as at 31 March	16,758	16,869

Other local authorities (including Police and Crime Commissioners) includes £82k (PFCC £nil) (2018/19 £578k, PFCC £nil) in respect of regional collaboration with other Police and Crime Commissioners in Yorkshire and Humberside (see Note 15 (b)).

27. Provisions

Group	Employee Related £'000	Other Insurance £'000	Total £'000
At 1 April 2019	1,943	1,537	3,480
Additional provision required	27	951	978
Amounts utilised during year	(495)	(300)	(795)
At 31 March 2020	1,475	2,188	3,663

PFCC	Employee Related £'000	Other Insurance £'000	Total £'000
At 1 April 2019	21	383	404
Additional provision required	46	656	702
Amounts utilised during year	(10)	(173)	(183)
At 31 March 2020	57	866	923

Group and PFCC

Provisions have been analysed between short-term and long-term as follows:

	2019/20 Group £'000	2019/20 PFCC £'000	2018/19 Group £'000	2018/19 PFCC £'000
Short-term	2,355	875	2,263	389
Long-term	1,308	48	1,217	15
Total	3,663	923	3,480	404

Employee Related provisions relate to claims arising from the Group's employers liability cover, together with other employee related provisions. Other Insurance provisions relate to claims arising from the Group's non-employee related insurance cover, principally motor and public liability claims.

Sums have been set aside to provide for the settlement of ongoing claims and cases not covered by insurance (identified as Provisions) and to provide for other possible events that might give rise to claims. Based on past experience of the time taken to settle claims, an estimate has been made of the proportion of claims which are likely to be settled within 12 months of the balance sheet date, and these are provided as current liabilities.

The Group has made arrangements with its insurers to provide cover for:

- liability claims subject to a policy excess of £150,000 for any one claim;
- liability and third party motor claims aggregating over £1.2 million;
- third party motor claims subject to an excess of £100,000 for any one claim;
- material damage to property, together with consequential business interruption, subject to a policy excess of £1,000 for any one occurrence in respect of all risks cover, £250 for any one occurrence in respect of cover for money and £100,000 for any one occurrence for all other incidents;
- computer, unmanned aerial vehicles, motor uninsured loss recovery, engineering, airside liability, fidelity guarantee, personal accident, environmental liability, travel and contract works subject to policy terms and conditions.

There are no reimbursements from third parties expected in relation to any of the above provisions.

28. Retirement Benefits

Group

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers and other employees, the Group offers retirement benefits. Although these benefits will not actually be payable until employees retire, the Group has a commitment to make the payments that needs to be disclosed at the time that employees earn their future entitlement.

The Group participates in four pension schemes:

- A Local Government Pension Schemes (LGPS) for police staff, administered by North Yorkshire County Council (NYCC). This is funded defined benefit scheme, meaning that the Group and employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets. For service up to 31 March 2014 this is a final salary scheme. A Career Average Scheme (CARE) came into effect for service from April 2014.
- Arrangements for the award of discretionary post-retirement benefits upon early retirement - this is an unfunded defined benefit arrangement under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pension liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.
- The schemes are operated under the regulatory framework for the LGPS and the governance of the schemes are the responsibility of the Pensions Board (see below). Policy is determined in accordance with the Pensions Fund Regulations. The investment managers of the fund are appointed by the Pensions Board with the support of the Corporate Director Strategic Resources and the fund's external investment advisors.
- The principal risks to the NYPCC of the schemes are the longevity assumptions, statutory changes to the scheme, structural changes to the schemes (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the schemes. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund the amounts required by statute as described in the accounting policies note.

- Three Police Pension Schemes for police officers. These are unfunded defined benefit final salary schemes, meaning that there are no investment assets built up to meet the pension liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due. The second scheme was introduced in April 2006 with the intention that joint contributions of employers and employees would finance the full costs of pension liabilities. All police officers recruited from April 2006 to April 2015 became members of the 2006 scheme and the previous scheme was closed to new members. The third scheme came into effect for officers recruited on or after April 2015. A number of Officers have been transferred from the previous schemes in year and will continue to do so moving forward based on calculated taper dates. The Group's participation in the Police Pension Schemes is administered by XPS Group Ltd.

Under the Police Pension Fund Regulations 2007, if the amounts receivable by the pension funds for the year is less than the amounts payable, the Group must annually transfer to the pension funds an amount required to meet the deficit. Subject to parliamentary scrutiny and approval, up to 100% of this cost is met by a central government pension top-up grant. If, however, the pension funds are in surplus for the year, the surplus is required to be transferred from the pension funds to the Group which must then repay the amount to central government.

Scheme Governance

The Public Service Pensions Act 2013 introduced a formal framework for the governance and administration of public service pension schemes, including the introduction of pension boards. The role of a public service pension board is to assist the Scheme Manager to secure compliance with scheme regulations and with legislation.

NYCC as scheme manager and administrator for the LGPS in North Yorkshire, has established a Pensions Board for all the schemes comprising the LGPS in North Yorkshire. Membership is drawn from scheme employers and members.

XPS Group Ltd has established a collaborative Police Pension Board for the Police Pension Schemes that they administer, including the Police Pension Schemes for which CCNY is the Scheme Manager. Membership is drawn from scheme employers and members.

Discretionary Post-Retirement Benefits

Discretionary post-retirement benefits on early retirement are an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. There are no plan assets built up to meet these pension liabilities.

Transactions Relating to Retirement Benefits

The cost of retirement benefits is recognised in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge required to be made against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the General Fund Balance.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the Movement in Reserves Statement during the year:

Transactions Relating to Retirement Benefits					Group 2019/20	PFCC 2019/20	Group 2018/19	PFCC 2018/19

	£'000	£'000	£'000	£'000	£'000	£'000
	Balance at 1 April	238,606	-	-	-	238,606
Interest on plan assets	5,935	-	-	-	5,935	5,704
Administration expenses	(169)	-	-	-	(169)	(140)
Remeasurement gains and (losses):						
- The return on plan assets, excluding the amount included in the net interest expense	(1,990)	-	-	-	(1,990)	13,358
- Actuarial gains/losses arising from changes in demographic assumptions	-	-	-	-	-	-
- Actuarial gains/losses arising from changes in financial assumptions	-	43,309	(136)	(18,846)	24,327	29,324
Employer contributions	4,558	6,921	136	13,166	24,781	17,553
Contributions by scheme participants	2,175	1,410	90	6,080	9,755	9,416
Benefits paid	(9,134)	(51,640)	(90)	(400)	(61,264)	(55,672)
Balance at 31 March	239,981	-	-	-	239,981	238,606

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the balance sheet date. Expected returns on equity investments reflect long-term real rates of return experienced in respective markets.

The actual gain on scheme assets in the year was £3.945m (PCC (£49.106m)) (2018/19 £19.062m PCC £4.249m)

Police Pension Scheme 2015	(111,780)	(82,600)	(53,500)	(34,760)	(10,940)
Total	(1,705,109)	(1,819,887)	(1,671,391)	(1,661,548)	(1,344,335)
PFCC					
LGPS	2019/20	2018/19	2017/18	2016/17	2015/16
	£'000	£'000	£'000	£'000	£'000
Present value of liabilities	(4,297)	(55,863)	(52,089)	(48,535)	(34,185)
Fair value of assets:	3,921	52,900	49,006	45,053	32,031
Surplus/(deficit) in the scheme:	(376)	(2,963)	(3,083)	(3,482)	(2,154)

The liabilities show the underlying commitments that the Group has in the long run to pay retirement benefits. The total liability has a substantial impact on the net worth of the Group as recorded in the Balance Sheet, resulting in a negative overall balance of £1.705m (2018/19 £1.820m). However, statutory arrangements for funding the deficit mean that the financial position of the Group remains healthy.

The deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees, as assessed by the scheme actuary.

Finance is only required to be raised to cover police pensions when the pensions are actually paid. Funding arrangements for the Police Pension Fund are detailed in the Police Pension Fund Accounts.

The projected employer contribution rates for 2019/20 and the weighted average duration of the defined benefit obligations for scheme members, as provided by the Actuary, are as follows:

Group	Percentage of Pensionable Pay	Weighted Average Duration
Scheme		
Local Government Pension Scheme (LGPS)	10.3% /10.3 %	25.4/24.9years
Police Pension Scheme 1987	65.8%	19 years
Police Pension Scheme 2006	49.4%	36 years
Police Pension Scheme 2015	73.0%	36 years
PFCC		
Scheme	Percentage of Pensionable Pay	Weighted Average Duration
Local Government Pension Scheme (LGPS)	10.3%	25.4 years

These are the projected rates that would be required to fully cover the pension costs arising in the year and do not represent the actual cost or contributions to be made.

Members of the Police Pension Schemes are able to seek a refund of contributions if they leave the service with less than two years service. With effect from 1 April 2014 members of the LGPS will automatically receive a refund of contributions if they leave with less than two years service. Up to that date members could opt for a refund if they left with less than three months service.

History of experience gains and losses

The actuarial gains identified as movements on the Pensions Reserve in 2019/20 can be analysed into the following categories, measured as a percentage of assets or liabilities at 31 March 2020:

Group	2019/20	2018/19	2017/18	2016/17	2015/16
	%	%	%	%	%
Differences between the expected and actual return on assets:					
Percentage of scheme assets	(0.8)%	5.6%	4.9%	15.4%	(3.2)%
Experience gains and losses on liabilities:					
Percentage of scheme liabilities	(2.1)%	(0.1)%	(0.7)%	(0.9)%	(2.2)%
PFCC				2019/20	2018/19
				%	%
Differences between the expected and actual return on assets:					
Percentage of scheme assets				(1286.2)%	5.6%
Experience gains and losses on liabilities:					
Percentage of scheme liabilities				(1200.2)%	(0.2)%

The Group expects to make employer contributions of £3.936m (PFCC £0.131m) to the Local Government Pension Scheme in the year to 31 March 2021. Employer contributions to the Police Pension Schemes in the same period are expected to be £16.825m.

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The Police Pension Schemes liabilities have been assessed by the Government Actuary's Department ("GAD") and the LGPS liabilities have been assessed by AON Hewitt Limited, an independent firm of actuaries, estimates for the LGPS being based on the latest full valuation of the scheme as at 31 March 2019.

The principal assumptions used by the actuaries have been:

	Local Government Pension Scheme		Police Pension Schemes	
	Group & PFCC		Group Only	
	2019/20	2018/19	2019/20	2018/19
<i>Mortality assumptions:</i>				
Longevity at 65 for current pensioners:				
Men	21.8 yrs	22.2 yrs	21.9 yrs	22.7 yrs
Women	23.9 yrs	25.3 yrs	23.6 yrs	24.3 yrs
Longevity at 65 for future pensioners				
Men	23.5 yrs	23.9 yrs	23.6 yrs	24.6 yrs
Women	25.7 yrs	27.2 yrs	25.2 yrs	26.2 yrs
Rate of inflation	1.90%	2.10 %	2.00%	2.35%
Rate of increase in salaries	3.15%	3.35 %	4.00%	4.35%
Rate of increase in pensions	1.90%	2.10 %	2.00%	2.35%
Rate for discounting scheme liabilities	2.30%	2.50 %	2.25%	2.45%
Rate of CARE revaluation	N/A	N/A	3.25%	3.60%

Under FRS 102 and IAS 19, employers are no longer required to recognise an expected return on assets item in the profit and loss charge. This item has been replaced with a net financing charge which is based on the discount rate assumption. Assumptions for the expected return on assets are therefore no longer required and will not be disclosed.

The Police Pension Schemes have no assets to cover their liabilities. The fair value of the LGPS scheme assets consist of the following categories:

	Group 2019/20 %	PFCC 2019/20 %	Group 2018/19 %	PFCC 2019/19 %
Cash and Cash Equivalents	4	4	5	5
Government Bonds	19	19	19	19
Corporate Bonds	-	-	-	-
Property - UK	7	7	8	8
Equities	59	59	57	57
Other	11	11	11	11
Total Assets	100	100	100	100

100% of the assets in the LGPS have a quoted market price.

Impact on the Cash Flows

The objectives of the scheme are to keep employers' contributions at as a constant a rate as possible. NYCC has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the long term. Funding levels are monitored on a quarterly basis. The next triennial valuation will be completed as at 31 March 2021.

29. Contingent Assets & Liabilities

Note 27 (Provisions) explains the treatment in respect of provision for amounts as known at the date of these accounts.

Civil and Employment Claims

The Group has not made provision in these accounts for the potential outcome of legal proceedings pending conclusion in relation to Civil and Employment Claims where it is not considered probable that a payment or a transfer of economic benefits will be required to settle the obligations

Regional Collaboration

This Group has agreed to indemnify other Regional Police and Crime Commissioners for its share of any costs in the event of any employment tribunal or civil court claims related to regional employment. This indemnity is unlimited. At this time, it is not possible to predict the value or timing of any obligations falling due as a result of this indemnity.

GMP Equalisation

On the 6th April 2016 the Government introduced the new State Pension designed to simplify pension provision. Guaranteed Minimum Pensions (GMP) was a portion of pension that was accrued by individuals who were contracted out of the State Second Pension prior to 6 April 1997. As a result of the pension reform, an inequality of benefits arose between male and female members who have GMP.

In March 2016, the government introduced an 'interim solution' which made schemes responsible for full increases on GMP's for individuals reaching SPA from 5th April 2016 through 6th December 2018. In January 2018, the interim solution was extended to individuals reaching SPA before 5th April 2021.

For the Police Pension Schemes a Past Service cost was recognised in the 2017/18 accounts reflecting GMP indexation for those who were due to reach SPA before April 2021. A further past service cost has been recognised in 19/20 in respect of additional liabilities for those members reaching SPA after 6 April 2021.

For the LGPS Schemes the approach for 2019/20 is to include a liability for GMP indexation for all members who SPA is after 6th April 2016 (not just those covered by the interim solution). The increase in liability has been charged through Other Comprehensive Income on the Actuary's assumption that it is immaterial.

30. Events after the Reporting Period

The Group has considered events that have occurred since the balance sheet date, up to the date that the accounts have been authorised for issue. Other than as mentioned below, no events have been identified which could materially impact on the figures in these financial statements, nor which would require disclosure to maintain the fair presentation of the financial statements.

No material or significant events have occurred after the reporting period at the time of compiling these accounts which are not already referred to or which amend the content of the Statement of Accounts.

31. Net Cash Flows from Operating Activities

Net Cash Flows from Operating Activities include:

Group and PFCC	2019/20	2018/19
	£'000	£'000
Interest received	143	96
Interest paid	153	84

32. Net Cash Flows from Investing Activities

Group and PFCC	2019/20	2018/19
	£'000	£'000
Purchase of Property, Plant and Equipment, Investment Property, Intangible Assets and Assets under Construction	4,258	3,046
Purchase of Short-Term Investments	11,500	9,700
Proceeds from the sale of Property, Plant and Equipment and Assets Held for Sale	(1,074)	(319)
Proceeds from Short-Term Investments	(11,500)	(9,700)
Net Cash Flows from Investing Activities	3,184	2,727

33. Net Cash Flows from Financing Activities

Group and PFCC	2019/20	2018/19
	£'000	£'000
Cash receipts of short-term and long-term borrowing	-	(6,000)
Cash payments for the reduction of the outstanding liabilities relating to finance leases	-	-
Repayments of short-term and long-term borrowing	-	-
Net Cash Flows from Financing Activities	-	(6,000)

34. Related Party Transactions

The Group is required to disclose material transactions and balances with related parties - bodies or individuals that have the potential to control or exercise significant influence over the Group or be controlled or influenced by the Group. Disclosure of these transactions allows readers to assess the extent to which the Group might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Group.

The PFCC purchases her Acting Chief Executive Officer services and her Chief Finance Officer from the Police and Crime Commissioner for Cleveland. Details of the cost of the provision of these Key Management Personnel are provided in Note 13(d)

The Group has sound arrangements for internal control and corporate governance (including a scheme of delegations and purchase, contract and procurement regulations) which minimise the potential for a single officer to constrain the actions of the Group, and which seek to ensure that the Group obtains Value for Money in all transactions.

Central Government

Central Government has effective control over the general operations of the Group. It is responsible for providing the statutory framework within which the Group operates, provides a substantial part of the Group's funding in the form of grants and prescribes the terms of many of the transactions the Group has with other parties.

Central Government has a role, together with the Police Fire and Crime Commissioner and the Chief Constable, in the tripartite system of police governance. Government Grants received by the Group are set out in Notes 11 and 14(f). Grant receipts outstanding at 31 March 2020 are included in Debtors (Note 23).

Other Local Authorities (including Other Police and Crime Commissioners)

Local Government provides a proportion of the funding for the Group. Details of precepts are set out in Note 12. Transactions with the Police and Crime Commissioners in respect of Regional Collaboration are set out in Note 15(b). The amounts owing to and from Other Local Authorities at the balance sheet date are included in Debtors (Note 23) and Creditors (Note 26).

Key Management

Key Management of the Group are also classed as related parties. Key Management are considered to be the Police Fire and Crime Commissioner and other senior officers (as defined in Note 13) and other persons having the authority and responsibility for planning, directing and controlling the activities of the Group, including the oversight of these activities.

Remuneration of Key Management is disclosed in Note 13(d).

On 15th November 2018 NYPCC became the Police Fire and Crime Commissioner for North Yorkshire (NYPFCC) when she took statutory responsibility for North Yorkshire Fire and Rescue Service, as the Fire and Rescue Authority (NYPFCC FRA). At the same time the PFCC CFO also became the CFO for NYPFCC FRA. NYPFCC FRA is a separate corporation sole, independent of NYPFCC. During 2019/20 the Group purchased services to the value of £163k (PFCC £43K) from the Fire and Rescue Authority, and received Income of £182k (PFCC £70K) in respect of recharge of expenditure and provision of services.

The Group is a member of the Association of Police and Crime Commissioners (APCC) and the Association of Police and Crime Chief Executives (APACCE) and senior officers engage with APCC and APACCE on Group business. Senior police officers are members of the National Police Chief Council (NPCC) and engage with NPCC on Force business.

During 2019/20 the Group incurred total subscription and conference costs from these organisations of £52k (PFCC £23k) (2018/19 £54k, PFCC £24k). £nil (PFCC £nil) was outstanding at 31 March 2020 (31 March 2019 £nil, PFCC £nil).

The Group received income to a value of £448k (PFCC £308k) (2018/19 £41k, PFCC £41k) and purchased services to a value of £1,560k (PFCC £60k) (2018/19 £739k, PFCC £739k) from organisations in which senior officers or their close relatives had positions on the governing body. In all instances transactions were made with proper consideration of declaration of interest. The relevant senior officers did not take part in any discussion or decision in relation to the transactions. At 31 March 2020 £nil (PFCC £nil) (31 March 2019 £nil, PFCC £nil) was owed by the Group to these organisations.

Pension Schemes

Transactions with Pension Schemes are set out in Note 28.

35. Nature and Extent of Risks Arising from Financial Instruments

Key Risks

The Group's activities expose it to a variety of financial risks. The key risks are:

- **Credit risk** the possibility that other parties might fail to pay amounts due to the Group
- **Liquidity risk** the possibility that the Group might not have funds available to meet its commitments to make payments
- **Refinancing risk** the possibility that the Group might be requiring to renew a financial instrument on maturity at disadvantageous interest rates or terms
- **Market risk** the possibility that financial loss might arise for the Group as a result of changes in such measures as interest rates movements.

Overall procedures for managing risk

The Group's overall risk management procedures focus on the unpredictability of financial markets and are structured to implement suitable controls to minimise these risks. The procedures for risk management are set out through a legal framework based on the Local Government Act 2003 and associated regulations. These require the Group to comply with the CIPFA Prudential Code, the CIPFA Code of Practice on Treasury Management in the Public Services and investment guidance issued through the Act. Overall, these procedures require the Group to manage risk in the following ways:

- by formally adopting the requirements of the CIPFA Treasury Management Code of Practice;
- by the adoption of a Treasury Policy Statement and treasury management clauses within its financial regulations/standing orders/constitution;
- by approving annually in advance prudential and treasury indicators for the following three years limiting:

- The Group's overall borrowing;
- Its maximum and minimum exposures to fixed and variable rates;
- Its maximum and minimum exposures to the maturity structure of its debt;
- Its maximum annual exposures to investments maturing beyond a year.

- by approving an investment strategy for the forthcoming year setting out its criteria for both investing and selecting investment counterparties in compliance with Government guidance.

These are required to be approved before the start of the year to which they relate. These items are reported with the annual Treasury Management Strategy which outlines the detailed approach to managing risk in relation to the Group's financial instrument exposure. Actual performance is also reported after each year, as is a mid-year update.

The annual Treasury Management Strategy which incorporates the prudential indicators was approved by the Commissioner for 2019/20 in March 2019. The key issues within the Strategy were:

- The Authorised Limit for 2019/20 was set at £12.2m. This was the maximum limit of external borrowings or other long-term liabilities;
- The Operational Boundary was expected to be £9.2m. This was the expected level of debt and other long-term liabilities during the year;
- The maximum amounts of fixed and variable interest rate exposure were set at 100% and 50% based on the net debt.

These policies are implemented by Financial Services on behalf of the Group. The Group maintains written principles for overall risk management, as well as written policies (Treasury Management Practices - TMPs) covering specific areas, such as interest rate risk, credit risk, and the investment of surplus cash. These TMPs are a requirement of the Code of Practice and are reviewed periodically.

Credit Risk

Credit risk arises from deposits with banks and financial institutions, as well as credit exposures to the Group's customers.

This risk is minimised through the Annual Investment Strategy, which is based solely upon the use of "specified investments", with all investments being sterling denominated with maturities up to a maximum of 364 days and meeting a minimum "high" credit rating. Deposits are not made with banks and financial institutions unless they meet the minimum requirements of the investment criteria outlined above.

The full Investment Strategy for 2019/20 was approved by the Commissioner in March 2019. It forms part of the Treasury Management Strategy.

Customers for goods and services are assessed, taking into account their financial position, past experience and other factors, with individual credit limits being set in accordance with internal ratings.

The Group's maximum exposure to credit risk in relation to its investments in banks and building societies of £12m (2018/19 £11m) cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. Recent experience has shown that it is rare for such entities to be unable to meet their commitments. A risk of irrecoverability applies to all of the Group's deposits, but there was no evidence at 31 March 2020 that this was likely to crystallise.

The following analysis summarises the maximum exposure to credit risk on financial assets, based on experience of default, adjusted to reflect current market conditions:

Group	Total		Historical experience of default		Estimated maximum exposure to default	
	31 March 2020	31 March 2019	31 March 2020	31 March 2019	31 March 2020	31 March 2019
	£'000	£'000	%	%	£'000	£'000
Cash and cash equivalents	12,298	11,065	-	-	-	-
Other debtors and amounts owed by related parties	9,684	12,263	0%	-	13	-
Total	21,982	23,328			13	-

PFCC	Total		Historical experience of default		Estimated maximum exposure to default	
	31 March 2020	31 March 2019	31 March 2020	31 March 2019	31 March 2020	31 March 2019
	£'000	£'000	%	%	£'000	£'000
Cash and cash equivalents	12,282	11,050	-	-	-	-
Other debtors and amounts owed by related parties	12,245	12,682	0%	-	13	-
Total	24,527	23,732			13	-

No breaches of the counterparty criteria occurred during the reporting period and the PFCC does not expect any losses from non-performance by any of her counterparties in relation to deposits and bonds.

An age analysis of the amounts due from debtors is disclosed in Note 23.

Collateral - During the reporting period the Group held no collateral as security (PFCC none).

Liquidity Risk

The Group manages its liquidity position through the risk management procedures above (the setting and approval of prudential indicators and the approval of the treasury and investment strategy reports), as well as through a comprehensive cash flow management system, as required by the CIPFA Code of Practice. This seeks to ensure that cash is available when needed.

The Group has ready access to borrowings from the money markets to cover any day-to-day cash flow needs, and the PWLB and money markets for access to longer-term funds. The Group is also required to provide a balanced budget through the Local Government Finance Act 1992, which ensures sufficient monies are raised to cover annual expenditure. There is therefore no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

Refinancing and Maturity risk

The Group maintains a significant investment portfolio. Whilst the cash flow procedures above are considered against the refinancing risk procedures, longer-term risk to the Group relates to managing the exposure to replacing financial instruments as they mature. This risk relates to both the maturing of longer-term financial liabilities and longer-term financial assets.

The approved treasury indicator limits for the maturity structure of debt and the limits placed on investments placed for greater than one year in duration are the key parameters used to address this risk. The Group's approved treasury and investment strategies address the main risks and Financial Services addresses the operational risks within the approved parameters. This includes:

- monitoring the maturity profile of existing and proposed financial liabilities; and
- monitoring the maturity profile of investments to ensure sufficient liquidity is available for the Group's day-to-day cash flow needs, and the spread of longer-term investments provide stability of maturities and returns in relation to the longer-term cash flow needs.

The maturity profile of financial liabilities is set out in Note 25.

Market Risk

Interest Rate Risk

The Group is exposed to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Group, depending on how variable and fixed interest rates move across differing financial instrument periods. For instance, a rise in variable and fixed interest rates would have the following effects:

- Borrowings at variable rates - the interest expense charged to the CIES will rise (however the Group does not currently have any variable rate borrowings);
- Borrowings at fixed rates - the fair value of the borrowing will fall (no impact on revenue balances);
- Investments at variable rates - the interest income credited to the CIES will rise;
- Investments at fixed rates - the fair value of the assets will fall (no impact on revenue balances).

Borrowings are not carried at fair value on the Balance Sheet, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure. However, changes in interest payable and receivable on variable rate borrowings and investments will be posted to the Surplus or Deficit on the Provision of Services and affect the General Fund Balance. Movements in the fair value of fixed rate investments that have a quoted market price will be reflected in Other Comprehensive Income and Expenditure.

The Group has a number of strategies for managing interest rate risk. The Annual Treasury Management Strategy draws together the Group’s prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. From this Strategy a treasury indicator is set which provides maximum limits for fixed and variable interest rate exposure. The Financial Services Directorate monitors market and forecast interest rates within the year to adjust exposures appropriately. For instance during periods of falling interest rates, and where economic circumstances make it favourable, fixed rate investments may be taken for longer periods to secure better long-term returns, similarly the drawing of longer-term fixed rate borrowings would be postponed.

If all interest rates had been 1% higher (with all other variables held constant) the financial effect would be:

	2019/20 Group and PFCC £'000
Increase in interest receivable on variable rate investments	116

The approximate impact of a 1% fall in interest rates would be as above but with the movements being reversed. These assumptions are based on the same methodology as used in Note 21 - Fair Value of Assets and Liabilities carried at Amortised Cost

Price Risk

The Group does not generally invest in equity shares or marketable bonds.

Foreign Exchange Risk

The Group has no financial assets or liabilities denominated in foreign currencies. It therefore has no exposure to gains or losses arising from movements in exchange rates.

NOTES TO THE POLICE PENSION FUND ACCOUNTS

1. Accounting Policies

The Police Pension Fund Accounts have been prepared in accordance with the IFRS Code and on an accruals basis. This means that sums due to or from the Pension Fund are included as they fall due, whether or not the cash has been received or paid. The accounting convention adopted is historical cost.

2. Operation of Police Pension Schemes

The Group operates three Pension Schemes for police officers. These are unfunded defined benefit schemes, meaning that there are no investment assets built up to meet the pension liabilities and cash has to be generated to meet actual pension payments as they eventually fall due. The second scheme was introduced in April 2006, with the intention that joint contributions of employers and employees would finance the full costs of pension liabilities. All police officers recruited from April 2006 to April 2015 become members of the 2006 scheme and the previous scheme has been closed to new members. The third scheme came into effect for officers recruited on or after April 2015. In addition a number of officers were transferred for the previous schemes on that date.

The charge in the accounts of the Group represents the net cost of pensions and other benefits paid, after deducting contributions receivable from members. Members contribution rates vary between 11% and 15.05% of pensionable pay.

3. Funding of Police Pension Schemes

The funding arrangements for Police Pension Schemes changed on 1 April 2006 and again on 1 April 2015. Before 1 April 2006 the schemes did not have a percentage of pensionable pay type of contribution, rather the Authority was responsible for paying pensions of former employees on a pay-as-you-go basis. Under the new funding arrangements the schemes remain unfunded but the Group no longer meets the pension outgoings directly, instead the Group pays an employer's contribution, based on a percentage of pay, into the Pension Fund. Each individual Police and Crime Commissioner in England and Wales is required by legislation to operate a Pension Fund for police officers and the amounts that must be paid into and paid out of the Pension Fund are specified by regulation.

Under the new arrangements, the Pension Fund will be balanced to nil at the end of the year by either paying over to the Group the amount by which amounts receivable by the Fund for the year exceeded the amounts payable or by receiving cash from the Group equal to the amount by which the amount payable from the pension fund for the year exceeded the amount receivable.

The Group will either pay an amount equal to the amount received from the Pension Fund to the Home Office or receive a pension top-up grant from the Home Office equal to the amount paid to the Pension Fund.

Liabilities in Relation to Retirement Benefits

The Police Pension Fund Accounts do not take account of liabilities to pay pensions and other benefits after the period end. Details of the liabilities for retirement benefits attributable to the Group at 31 March 2020, and of the basis for assessing those liabilities, are included in Note 26 to the Statement of Accounts.

The present value of the Police Pension Scheme liabilities, based on the most recent full valuation of the Scheme (as the 31 March 2016) and updated to the balance sheet date, are disclosed below:

	31 March 2020	31 March 2019
	£'000	£'000
Police Pension Scheme 1987	1,512,440	1,651,400
Police Pension Scheme 2006	57,750	61,720
Police Pension Scheme 2015	111,780	82,600
Total present value of liabilities	1,681,970	1,795,720

Full details of the liabilities for retirement benefits attributable to the Group at 31 March 2020, and of the basis for assessing those liabilities, are included in Note 26 to the Group Accounts.

5. Debtors	31 March 2020 £'000	31 March 2019 £'000
Short Term - Other Local Authorities	-	-
6. Creditors	31 March 2020 £'000	31 March 2019 £'000
Short Term - General	-	-

GLOSSARY OF TERMS

ACCRUAL: The recognition, in the correct accounting period, of income and expenditure as it is earned or incurred, rather than as cash is received or paid.

ACCRUED BENEFITS: The benefits for service up to a given point in time, whether vested rights or not.

ACTUARIAL GAINS AND LOSSES: For a defined benefit scheme, the changes in actuarial deficits or surpluses that arise because events have not coincided with the actuarial assumptions made for the last valuation (experience gains or losses) or the actuarial assumptions have changed.

ACTUARIAL VALUATION: A valuation of assets held, an estimate of the present value of benefits to be paid and an estimate of required future contributions, by an actuary, on behalf of a pension fund.

AGENCY SERVICES: The provision of services by a Police and Crime Commissioner or Chief Constable (the agent) on behalf of another Police and Crime Commissioner or Chief Constable, which is legally responsible for providing those services. The responsible Police and Crime Commissioner or Chief Constable reimburses the Police and Crime Commissioner or Chief Constable providing the service.

AMORTISED COST: The cost of an intangible asset after amortisation, which is the systematic allocation of the depreciable amount of an asset over its useful life.

ANNUAL GOVERNANCE STATEMENT: Describes the governance framework incorporating the systems and processes, culture and values by which the Group is directed and controlled and the activities through which it accounts to and engages with the community.

APPROPRIATIONS: Amounts transferred to or from revenue or capital reserves.

ASSET: An item which has a value; for example, land and buildings, vehicles, equipment, cash.

AUDIT COMMISSION: An independent body, established under the Local Government Finance Act 1982. It is the responsibility of the Audit Commission to appoint external auditors to Police and Crime Commissioners and Chief Constables.

BALANCES: The total general balances available are the accumulated surplus of income over expenditure which enable operation without borrowing until the first precept and grant payments are received in the early part of the financial year. Balances are also used to cover any unexpected expenditure during the financial year.

BALANCE SHEET: This sets out the financial position of an organisation on a particular date. It shows the balances and reserves at the organisation's disposal, its long-term indebtedness, the fixed and net current assets employed in its operations and summarised information on the fixed assets held.

BUDGET: A statement of an organisation's plans in financial terms. A budget is prepared and approved before the start of each financial year and is used to monitor actual expenditure throughout the year.

CAPITAL ADJUSTMENT ACCOUNT: The account through which all financing of fixed assets is charged.

CAPITAL EXPENDITURE: Expenditure on new assets or on the enhancement of existing assets so as to prolong their life or enhance market value.

CAPITAL FINANCING CHARGES: The repayment of loans and interest used to pay for capital projects.

CAPITAL GRANT: Grant from Central Government used to finance specific schemes in the capital programme. Where capital grants are receivable these are used, as far as possible, to finance capital expenditure to which they relate in the year that the grant is received.

CAPITAL RECEIPTS: The proceeds from the sale of an asset, which may be used to finance new capital expenditure or to repay outstanding loan debt, as laid down within rules set by Central Government.

CAPITAL RESERVE: Created to provide an alternative source of financing for capital expenditure and to ensure some stability in the level of capital programmes that can be financed.

CASH FLOW STATEMENT: This summarises the cash receipts and payments of the Group arising from transactions for both revenue and capital purposes.

CHARTERED INSTITUTE OF PUBLIC FINANCE AND ACCOUNTANCY (CIPFA): This is the main professional body for accountants working in the public services.

COLLECTION FUND: A fund administered by each District Council in which individuals' council tax payments are paid. The Police and Crime Commissioner raises a precept on the fund to finance part of their net revenue expenditure.

COLLECTION FUND ADJUSTMENT ACCOUNT: The account through which to implement the accruals basis for recording the precept in these accounts without affecting the bottom line for taxpayers.

COMPONENT ACCOUNTING: Component accounting requires that where an asset has several components, which can be physically separated from the principal asset and which have significantly different useful lives, these should be recognised separately and should be depreciated based on their respective useful lives. Component accounting aims to improve depreciation accounting and thus improves the measurement of operating results. It also facilitates accounting for replacements.

CONTINGENCY: The sum of money set aside to meet unforeseen expenditure or liability.

COUNCIL TAX: The local tax levied on householders, based on the relative market values of property, which helps to fund local services.

CREDIT APPROVAL: Authorisations given by Central Government to local authorities, which enable them to finance capital expenditure by borrowing or other credit arrangements such as leasing.

CREDITORS: Individuals or organisations to whom money is owed at the end of the financial year.

CURRENT ASSETS AND LIABILITIES: Current assets are items that can be readily converted into cash. Current liabilities are items that are due immediately or in the short term.

CURRENT SERVICE COSTS (PENSIONS): The increase in the present value of a defined benefit scheme's liabilities expected to arise from the employee service in the current period.

CURTAILMENT: For a defined benefit scheme, an event that reduces the expected years of future service of present employees or reduces for a number of employees the accrual of defined benefits for some or all of their future service.

DEBTORS: Individuals or organisations from whom money is owed at the end of the financial year.

DEFERRED LIABILITIES: Liabilities which, by arrangement, are payable beyond the next year, at some point in the future or paid off by an annual sum over a period of time.

DEFERRED PENSIONS: Individuals who have ceased to be active members but are entitled to benefits payable at a later date.

DEFINED BENEFIT SCHEME: A pension scheme which defines the benefits independently of the contributions payable and the benefits are not directly related to the investments of the scheme.

DEPRECIATION: An annual charge to reflect the extent to which an asset has been worn out or consumed during the financial year.

DIRECT REVENUE FINANCING: Resources provided from the revenue budget to finance the cost of capital projects.

DISCRETIONARY BENEFITS: Retirement benefits which the employer has no legal, contractual or constructive obligation to award and which are awarded under discretionary powers.

EARMARKED RESERVES: These reserves represent monies set aside that can only be used for a specific purpose.

EXPECTED RATE OF RETURN ON PENSION ASSETS: For a funded defined benefit scheme, the average rate of return, including both income and changes in fair value but net of scheme expenses, expected over the remaining life of the related obligation on the actual assets held by the scheme.

EXTRAORDINARY ITEMS: Material items, possessing a high degree of abnormality, which derive from events or transactions that fall outside ordinary activities and are not expected to recur.

FINANCE AND OPERATING LEASE: A Finance lease transfers all of the risks and rewards of ownership of a fixed asset to the lessee. If these leases are used, the assets acquired have to be included within the fixed assets in the balance sheet at the market value of the asset involved. With an operating lease the ownership of the asset remains with the leasing company and an annual rent is charged to the relevant service revenue account.

FINANCIAL REGULATIONS: A written code of procedures approved by the Police and Crime Commissioner, intended to provide a framework for proper financial management.

FIXED ASSETS: Tangible assets that yield benefits for a period of more than one year.

FORMULA SPENDING SHARE (FSS): An assessment by Central Government of how much a Police and Crime Commissioner needs to spend to provide a common level of service, having regard to their individual circumstances. It is used to distribute Revenue Support Grant and Police Grant.

GAD: The Government Actuaries Department. They provide estimates of the liabilities of the Police Pension Scheme.

GOING CONCERN: The concept that an organisation will remain in operational existence for the foreseeable future, in particular that the revenue accounts and balance sheet assume no intention to curtail significantly the scale of operations.

GOVERNMENT GRANTS: Assistance by government and inter-government agencies and similar bodies, whether local, national or international, in the form of cash or transfers of assets to an authority in return for past or future compliance with certain conditions relating to the activities of the authority.

IMPAIRMENT: A reduction in the value of an asset from the balance sheet value occurring as a result of a change in the condition and consumption of the asset or as a result of market conditions.

INCOME AND EXPENDITURE ACCOUNT: This summarises the resources generated and consumed for the year and shows how the costs have been financed.

INTEREST INCOME: The money earned from the investment of surplus cash.

INTEREST COSTS (PENSIONS): For a defined benefit scheme, the expected increase during the period in the present value of the scheme liabilities because the benefits are one period closer to settlement.

INTERNATIONAL FINANCIAL REPORTING STANDARDS (IFRS): Standards and Interpretations adopted by the International Accounting Standards Board (IASB). They comprise:

- (a) International Financial Reporting Standards;
- (b) International Accounting Standards; and
- (c) Interpretations developed by the International Financial Reporting Interpretations Committee (IFRIC) or the former Standing Interpretations Committee (SIC).

INVESTMENTS (PENSION FUND): The investments of a Pension Fund will be accounted for in the statements of that Fund. However, sponsoring bodies are also required to disclose, as part of disclosures relating to retirement benefits, the attributable share of pension scheme assets associated with their underlying obligations.

MINIMUM REVENUE PROVISION (MRP): The statutory minimum amount which a Police and Crime Commissioner is required to set aside on an annual basis as a provision to redeem debt.

NET BOOK VALUE: The amount at which fixed assets are included in the balance sheet, i.e. their historical cost or current value less the cumulative amounts provided for depreciation.

NET CURRENT REPLACEMENT COST: The cost of replacing or recreating the particular asset in its existing condition and in its existing use, i.e. the cost of its replacement or of the nearest equivalent asset, adjusted to reflect the current condition of the existing asset.

NATIONAL NON-DOMESTIC RATES (NNDR): The business rate in the pound is the same for all non-domestic ratepayers and is set annually by the government. Income from business rates goes into a central government pool that is then distributed according to resident population.

NON-OPERATIONAL ASSETS: Non-operational assets are fixed assets held but not directly occupied or used in the delivery of services. They include surplus properties awaiting disposal and assets that are under construction.

OPERATIONAL ASSETS: Fixed assets held and occupied, used or consumed in the direct delivery of those services for which they have either a statutory or discretionary responsibility.

OUTTURN: The actual amount spent in the financial year.

PAST SERVICE COST: For a defined benefit scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to, retirement benefits.

PAYMENTS IN ADVANCE: These represent payments prior to 31 March for supplies and services received by the Group after 1 April.

PENSION FUND: A fund which makes pension payments on retirement of its participants.

POLICE GRANT: A grant paid by the government to Police and Crime Commissioners as a proportion of the Formula Spending Share or FSS.

PRECEPT: The income which the Police and Crime Commissioner requires the District Council to raise from Council Tax on behalf of the Police and Crime Commissioner.

PROJECTED UNIT METHOD: An accrued benefits valuation method in which the scheme liabilities make allowances for projected earnings. The scheme liabilities at the valuation date relate to:

- the benefits for pensioners and deferred pensioners, and their dependents, allowing where appropriate for future increases and
- the accrued benefits for members in service at the valuation date.

PROVISION: An amount set aside to provide for a liability that is likely to be incurred but the exact amount and the date on which it will arise are uncertain.

PUBLIC WORKS LOAN BOARD (PWLB): A government agency which provides longer-term loans to local authorities at interest rates only slightly higher than those at which the government itself can borrow.

RECEIPTS IN ADVANCE: These represent income received prior to 31 March for supplies and services provided by the Group after 1 April.

RESERVES: Monies set aside by the Group that do not fall within the definition of provisions.

RETIREMENT BENEFITS: All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment.

REVENUE CONTRIBUTIONS TO CAPITAL: Contribution from the Comprehensive Income and Expenditure Statement to finance capital expenditure and thus reduce the requirement to borrow.

REVENUE SUPPORT GRANT (RSG): General government grant support towards expenditure.

REVALUATION RESERVE: This account represents the difference between the current valuation of fixed assets and the historic costs of those assets. This Account came into effect 1 April 2007.

SCHEME LIABILITIES: The liabilities of a defined benefit scheme for outgoings due after the valuation date. Scheme liabilities measured using the projected unit method reflect the benefits that the employee is committed to provide for service up to the valuation date.

SERVICE REPORTING CODE OF PRACTICE FOR LOCAL AUTHORITIES (SeRCOP): A CIPFA guide to accounting for best value which provides a consistent and comparable calculation of the cost of services.

SETTLEMENT: An irrevocable action that relieves the employer (or the defined benefit scheme) of the primary responsibility for a pension obligation and eliminates significant risks relating to the obligations and the assets used to effect the settlement.

SPONSORSHIP: The voluntary provision of non-public funds, services, equipment or other resources that enable the enhancement or extension of the normal service provided.

STATEMENT OF ACCOUNTING POLICIES: This explains the basis of the figures in the accounts. The accounts can only be properly appreciated if the policies that have been followed in dealing with material items are explained. Changes in policies from previous years have been clearly shown.

STATEMENT OF RESPONSIBILITIES FOR THE STATEMENT OF ACCOUNTS: This explains the responsibilities of both the Police and Crime Commissioner and Police and Crime Commissioner's Chief Finance Officer in respect of the Statement of Accounts.

STATEMENTS OF STANDARD ACCOUNTING PRACTICE (SSAP): These standards were adopted by the Accounting Standards Board (ASB) from its predecessor, the Accounting Standards Committee (ASC), and regulate the preparation and presentation of financial statements. Any new Standards are now referred to as Financial Reporting Standards (FRS). The CIPFA Code of Practice on Local Authority Accounting 2007 requires compliance to these Standards or disclosures in the notes if there are any material departures from those Standards.

TRANSFER VALUES: Payment made by one pension scheme to another in respect of accrued pension rights when a member of a scheme changes pensionable employment.

TREASURY MANAGEMENT POLICY (TMP): This is a policy adopted to manage investments, cash flows, and banking transactions. It governs the control of risks associated with these activities and the pursuit of optimum investment return balanced with security of investment.

WORK IN PROGRESS: The cost of work done on an uncompleted project at the balance sheet date.
